

OCFS Provider Contract Performance Measures Report
Child PNMI Services Treatment Outcome Standard- 60% of youth discharged from residential care go to home settings
(Includes MaineCare members and Courtesy Reviews done by APS)
01/01/2014 To 03/31/2014

Report Source: Authorization data from APS CareConnection®

Definitions:

- **Courtesy Review** - APS completes courtesy reviews when a member is not MaineCare eligible at the time of admission, but is expected to be served using either MaineCare and/or state funds.
- **Discharge:** Providers are asked to enter a discharge into APS' CareConnection system whenever a member leaves an APS-reviewed service. If no discharge is entered, then the member is not included in this report.
- **Residential care:** Youth in need of residential treatment services are served in PNMI. **PNMI** stands for Private Non-Medical Institution (PNMI). PNMI provides food, shelter, personal care, and treatment services to four or more residents in single or scattered site facilities. PNMI services are not provided in medical settings such as hospitals or nursing homes. There are four types of child PNMI as follows: **Mental Health Level I & Level II and Mental Retardation Level I & Level II.** Youth in **Multidimensional Treatment Foster Care** are also included. Multidimensional Treatment Foster Care is an evidenced based residential treatment service used as an alternative to incarceration.
- **Home settings:** The goal of residential treatment is to prepare youth to live successfully at home. A home setting is defined as ""own apartment or home", "supported apartment", "rent subsidy or "foster care added." These are 4 of the 17 dropdown choices that a provider may choose from when answering the question "Living situation upon discharge?" in APS CareConnecton.
- **Incarcerated:** When the provider chooses "Incarcerated in a State Prison or County Jail" from the dropdown choices when answering the question "Living situation upon discharge?" in APS CareConnecton.
- **Higher level of care:** A higher level of care is defined as the provider choosing any of the following when answering the question "Living situation upon discharge?" in APS CareConnecton: "Hospitalized for Medical Reasons", "Residential crisis unit", "Other Psychiatric", "Dorothea Dix" or "Riverview Psychiatric Center".
- **Residential:** A residential setting is defined as choosing any of the following when answering the question "Living situation upon discharge?" in APS CareConnecton: "Assisted Living Facility", "Community Residential Facility", "Nursing Home", or "Residential Treatment Facility".

What This Report Measures: The number of youth discharged from residential care to home settings, higher levels of care, residential care or other settings.

Total # youth discharged from residential treatment: 61
 % youth discharged to a home setting: 41% (23/56)

Total # discharges with "Living Situation" question answered: 56

<u>Providers</u>	<u># incarcerated</u>	<u># to higher level of care</u>	<u># to residential care</u>	<u># to other</u>	<u># to home</u>	<u># Discharges with info</u>	<u>% home</u>
