

Maine DHHS VMS Portal Dashboard Data

The Maine Department of Health and Human Services (DHHS) Value-Based Purchasing Management System (VMS) portal contains two dashboards of specific measure data: Utilization and Quality. These dashboards were created to give providers medical claims information for the members they serve through the Health Home (HH) and Behavioral Health Home (BHH) programs.

DHHS VMS Portal Utilization Measures

ID	Measure Name	Description
1	Hospitalizations in the last quarter	Count of hospitalizations paid in the last quarter -- Excludes hospitalizations related to substance use disorders from those hospitals that have specialized substance abuse treatment units
2	Hospitalizations in the last year	Count of hospitalizations paid in the last year -- Excludes hospitalizations related to substance use disorders from those hospitals that have specialized substance abuse treatment units
3	ED visits in last quarter	Count of Emergency Department visits paid in the last quarter
4	ED visits in last year	Count of Emergency Department visits paid in the last year
5	Pts AC total Core paid claims greater than \$10,000	Total Accountable Community (AC) Core cost for patients where AC Core cost (acute medical, behavioral health and pharmacy) are greater than \$10,000 in the last year (see Appendix B)
6	Pts total AC Optional paid claims where AC Core cost greater than \$10,000	Total AC Optional cost for patients where AC Core costs are greater than \$10,000 in the last year; AC Optional services include dental, nursing homes, ICF-MR, Home and Community Based Waivers, Private Duty Nursing and other long term care services and supports (see Appendix B)
7	Pts total AC Excluded paid claims where AC Core cost greater than \$10,000	Total AC Excluded cost for patients where AC Core cost are greater than \$10,000 in the last year; AC Excluded services include Private Non-Medical Institutions (PNMIs), non-emergent transportation, targeted case management provided by the state and Other related conditions waiver (Appendix B)
8	Number of Rx in last quarter (Number of Distinct NDC Codes)	The number of different Prescription NDC codes paid by MaineCare in the last quarter (Substance Abuse and HIV have been excluded)
9	Pts with no PCP visit in the past year	Patients with no Primary Care visit paid in the last year
10	Pts with no HbA1c test in the last quarter (Diabetes)	Patients with Diabetes identified through claims analysis without a HbA1c test claim paid in the last quarter
11	Pts with no LDL panel in the last year (Diabetes)	Patients with Diabetes identified through claims analysis without a LDL panel claim paid in the last year
12	Pts with no LDL panel in the last year (CVD)	Patients with Cardiovascular Disease identified through claims analysis without a LDL panel claim paid in the last year

DHHS VMS Portal Quality Measures

ID **Measure Name/Description**

Preventive Health

10	Well-Child Visits - Age - 1st 15 Months of Life (% of Members w/6 or more visits)
20	Well-Child Visits - Age - 15 Months - 3 Yrs (% of Members w/1 or more visits)
30	Well-Child Visits - Age 3-6 Yrs
40	Well-Child Visits - Age 7-11 Yrs
50	Adolescent Well-Care Visits 12–21 years of age
60	Developmental Screening in 1st 3 Years of Life
80	Percent Members with Primary Care Provider visit

Care Coordination

140	Use of High Risk Meds in the Elderly - At least 1 high-risk medication *
150	Use of High Risk Meds in the Elderly - At least 2 different high-risk medications *

At-Risk Populations

160	Use of Appropriate Meds for people with Asthma - Age 5-11 Yrs
170	Use of Appropriate Meds for people with Asthma - Age 12-50 Yrs
180	Non Evidence - Based Antipsychotic Prescribing *
200	Cardio-Metabolic Screening for Adults and Children who are prescribing Antipsychotic Medications
220	Diabetes: Adult - Hemoglobin A1c (HbA1c) Testing
230	Diabetes: Adults Dilated Retinal
240	Diabetes: Adults Lipid Control
250	Diabetes: Adults Nephropathy
270	Use of Spirometry Testing COPD
280	Initiation of alcohol and other drug dependence treatment
290	Engagement of alcohol and other drug dependence treatment
300	Follow-up after Hospitalization for Mental Illness – 7 Day
310	Follow-up after Hospitalization for Mental Illness – 30 Day

	Measure for only Behavioral Health Home Practices
	Measure for only Health Home Practices
	Measure for both HHP and BHH

If you have any suggestions regarding additional measures that could be helpful to your practice, please contact: HH-BHH-Services.DHHS@maine.gov .
