

To Adult Members Receiving Health Home and Targeted Case Management Services

As you may know, you were enrolled in the Health Home program at your primary care practice. This program helps MaineCare members who have health needs that last a long time. You got these services based on your health care needs. Health Homes work with Community Care Teams (CCT) to provide care coordination, referrals, and other services. You have been receiving CCT services as part of the Health Home program.

You are now also eligible for Targeted Case Management (TCM) services. TCM also provides care coordination, referrals, and similar services. You cannot get both Health Home/CCT services and TCM at the same time.

MaineCare has asked your providers to work help you decide which service best meets your needs. Please note that your primary care provider will not change with either service that you choose.

Please check one of the following:

I choose to continue to be enrolled in the Health Home program and receive services from the CCT. I do not wish to receive TCM services at this time. I understand that I can continue to see my primary care provider.

I choose to receive TCM services instead of being enrolled in the Health Home program. I understand that I can continue to see my primary care provider.
