Child Care – 12 TO 15 Year Old Programs

These agencies operate after school programs for children ages twelve to fifteen years of age. The programs enhance the educational, social, cultural, emotional and physical development of youth through developmentally appropriate activities. Programs offer tutoring, art programming, science and technology, sports activities, field trips, job shadowing and community services.

Child Care – Quality Improvement Activities

Resource Development Centers.

The Resource Development Centers act as a clearinghouse for existing providers, programs and activities. The centers provide resource development through technical assistance to public and private employers, information and referral services, recruitment, assistance, and training to current and potential child care providers, education to community groups and establishment of local advisory committees for each resource development center.

Maine Roads to Quality

A professional development system for child care providers is coordinated through a contract with the University of Southern Maine. The program known as Maine Roads to Quality has created a career development system provides scholarships for training and maintains a professional development registry and a trainer registry.

Child Care Plus ME project is a collaborative state and university partnership between the University of Maine, Center for Community Inclusion and the Office of Child Care and Head Start. The goal of this project is to develop a comprehensive system to support the provision of and access to high quality child care for all children, particularly those with challenging medical and behavioral health care needs and to prevent children from being excluded from mainstream child care programs.

Infant-Toddler Summer Institute

Maine has a shortage of quality child care services for infants and toddlers. The Infant-Toddler Summer Institute was designed to improve the quality of care through training and funds for equipment. Equipment grants were based on the number of new infants and toddlers the providers planned to enroll. Providers who attended the Institute and completed the course requirements received 3 credits from the University of Maine at Farmington for the course “Infants, Toddlers and Their Caregivers.

Infant-Toddler Technical Assistance

Maine has been selected to be part of a National Infant-toddler Initiative to improve the quality of and access to infant and toddler care in the state. An infant-toddler specialist coordinates work of the Initiative on a part-time basis through an agreement with Central Maine Community College. The specialist also provides technical assistance to providers who are offering infant-toddler care.

Early Childhood Learning Guidelines

An interdepartmental task force developed Early Childhood Learning Guidelines that align with the Maine K-12 Learning Results. The Early Childhood Learning Guidelines are standards that focus on what all children should know and be able to do in order to succeed in school. These guidelines can serve as a foundation for establishing programs and practitioner standards.

After School Program Support

The federal grant includes a set-aside for quality improvement of after school programs. This funding is being used to provide technical assistance to after school care programs and to expand after school care in Maine through a cooperative agreement with the University of Maine at Farmington.

Office of Children and Family Services Summary

Office of Children and Family Services

Child Care – Subsidy Services

Child care funds help parents who are working or in a training program pay for child care for any part of the day, but less than 24 hours. Child care may be provided in a child care center, small facility, family child care home, or in-home care. Agencies and providers that receive funds must meet state child care licensing requirements. Payments to providers are based on a Market Rate Survey. Parents also pay a sliding fee based on the family income. No subsidized family will pay more than 10% of their income on child care expenses.

The Department of Health and Human Services contracts with 45 agencies statewide to provide direct child care services. These agencies provide child care services to eligible families. Services include full-time or part-time child care, wrap-around services for Head Start and family child care networks for children ages 6 weeks to 12 years of age.

Eligible parents may request a voucher from one of 11 Regional Voucher Management Agencies statewide to help pay for child care. These vouchers permit parents to choose from the full variety of child care options listed above.

During the last year, 2,631 children were enrolled in the child care “slots” through contracted agencies. More than 6,310 children received state subsidized services through child care vouchers.

Community Action Programs

Funds under this service are distributed by federal statute to Maine's eleven designated Community Action Agencies (CAA) for the purpose of ameliorating the causes of poverty found in our communities. The CAAs are provided with maximum flexibility to use these funds to provide services that best achieve the goal and objectives of the federal grant given the unique needs of the individual communities served.

Respite care is planned temporary care of an individual with developmental or emotional/behavioral disabilities for the purpose of providing relief to the primary care giver. Services are provided in the parent's home or at the home of a provider who may be certified or chosen by the family. While in respite care, a child receives care that addresses the health, behavioral, and daily living needs of the child.

Office of Children and Family Services

Crime Victims – Victim Advocacy Services

The services provided with these funds are designed to enhance the management and coordination of activities between the District Attorneys’ Offices, DHHS Child Protective program, law enforcement agencies and community-based social service programs through assisting victims with law enforcement and court proceedings, preparation of victims for court appearance, advocating for victims through legal proceedings and referral to appropriate community support services. The victim advocates provide critical support and information to victims and their families to minimize the trauma that is often attached to crime victimization, law enforcement investigations and court proceedings.

Mobile response are those services that include outreach crisis intervention to home, school, street, emergency shelter or other setting, available on a 24-hour, seven-day a week basis. Covered services include direct telephone contacts with both the child and the child's legally responsible party when at least one face-to-face contact is made with the child within seven (7) days of the first contact related to the crisis resolution service. A written plan of care for the child must be developed and reviewed with the family within thirty (30) days after the initial crisis event. When face-to-face contact with the child is indicated, services also include assessment, evaluation and referral, as needed.

Office of Children and Family Services Summary

Office of Children and Family Services

Head Start

The Head Start service area is funded by two separate sources: State Head Start Funds and Fund for Healthy Maine funds. The appropriations provide funds for contracts DHHS negotiates with Head Start agencies in Maine. These annual contracts require that each of the 12 agencies deliver comprehensive developmental services to a maximum enrollment of Maine's economically disadvantaged children.

Office of Children and Family Services

Homemaker Services

Homemaker services are the arrangement for and provision of home-delivered instruction, training or assistance by trained paraprofessionals in maintaining or supplementing housekeeping/homemaking, and may include information and referral if the client does not have a case manager. Services for all clients include development of care plans based on in-home assessments and reassessments. Services include in-home assistance and/or instruction in housekeeping, budgeting, meal planning/preparation, laundering and errands. Errands are limited to grocery shopping, picking up medication, banking and laundering. In addition to the provision of core homemaker services, homemaker services may include transportation and non-medically prescribed personal care when integral to the provision of the core homemaker services.

This service involves the structured developmental or rehabilitative programs designed to improve a child's functioning in daily living and community living. To be reimbursable, Day Treatment Services must have the primary purpose of diagnosis, treatment, or rehabilitation of a mental disorder or a dysfunction resulting from a mental disorder. Programs commonly include a mixture of individual, group, and activities therapy, and may also include therapeutic treatment orientated toward developing a child's emotional and physical capability in the areas of daily living, community integration, and interpersonal functioning. Services will be provided as prescribed in the treatment plan and may include elements of partial hospitalization services.

Children's Outpatient Services include professional assessment, counseling, and therapeutic services to children, the purposes of which are to promote positive orientation, relief of excess stress, and growth toward more integrated and independent levels of functioning. Family Psychoeducation Treatment Program Services are provided to those eligible children as defined in Section 65.04-1(E) in multi-family groups and single family sessions. Counseling services engage the recipient and, if appropriate, family members in problem-solving discussions about mental health problems. The goal of such counseling is to promote in the recipient positive orientation, relief of excess stress, and growth toward more integrated and independent levels of functioning. Services are delivered through a scheduled series of evaluation, intervention, and treatment processes. Their purpose is to identify and then treat the developmental and emotional needs and problems of the recipient.

Refugee Resettlement

The major goal of this program is to provide assistance in order to help refugees achieve economic self-sufficiency and social adjustment within the shortest time possible following their arrival in the U.S.

Funds from this federal program are targeted to the provision of:

- Cash and Medical Assistance (RCA and RMA) to refugees who are not eligible for other cash or assistance programs such as TANF, SSI, or Medicaid and who arrive in the United States with no financial resources.
- Social Services that consists of English Language Training, Employment Services, and a wide range of cultural adjustment services, including services to the elders.
- Preventive Health Services that consist of preventive health assessment and treatment services for the protection of the public health against contagious disease.

This service involves a home that provides board and care for one or more children on a regular, 24 hour a day basis, staffed by employees of the agency under which it operates. A specialized home provides care to no more than four moderately to severely handicapped children by a caretaker specifically educated and trained to provide for the particular needs of each child. The total number of children may not exceed four including the caretaker's legal children under 16 years of age, and no more than two of the children may be under the age of two. Residential Treatment Intensive, temporary out of home treatment for children and adolescents is provided in a community residential setting that includes 24 hour supervision. Residential treatment provides medically necessary services that cannot be provided at home, but do not require staying in a hospital. Treatment will focus on the reasons that made it necessary for the child to leave home and will center on returning the child home. Children/adolescents ages 0-20 with mental retardation, autism, severe mental illness and/or emotional disorders may be considered for this service.

Special Needs – Community Intervention

Community Intervention agencies provide services to families that are referred by the Office of Child and Family Services. These families have either had: child protective reports filed that are determined to be low to moderate in severity or child protective cases for which a Department case plan is in effect and the risk to the children in the household has been substantially reduced and the family is cooperating. Services include assessment of families’ strengths and weaknesses, development of case plans, provision or arrangement for services outlined in the case plan, and case management services as developed in the case plan.

Special Needs – Home Based Mental Health

Home based mental health services are provided to eligible clients referred by the Department of Health and Human Services. Eligible recipients are families with children under the age of 21 who are at risk of out of home placement; or families with children under the age of 21 who are being reunited/returned to their families from an out-of-home placement. The agencies provide intensive, short-term mental health services in the home of the recipient. The services include an assessment; provision of counseling, referrals for other needed services, and coordination of discharge planning.
