

Statewide Quality Improvement Council

(Elevator speech)

The QIC (Quality Improvement Council) is a federally mandated planning and advisory council for the State of Maine. The council members are a diverse group of individuals with lived experiences receiving, accessing and providing mental health and substance abuse services. The QIC reviews, monitors and advises the state mental health and substance abuse system in a variety of areas. Our main focus is the SAMHSA Block Grant allocations which include behavioral, developmental and substance abuse issues for children, youth, family, young adults and adults.

Our purpose is to foster accountability through our working relationships with state entities involved with the provision of behavioral health services. We aim to create a platform for children, youth, family, young adult and adult voices to give their perspectives on policy and funding issues.
