## Location Effort Report for Quarter 4, State Fiscal Year 2008 (April, May, June 2008)

During this quarter, the DHHS Office of Adult Mental Health Services (OAMHS) continued its efforts to maintain current, accurate addresses for *Bates v. DHHS Consent Decree* class members. Address information is entered into and tracked through the DHHS EIS (Enterprise Information System – electronic database).

Over the past quarter, data specialists within the OAMHS has utilized the following sources for the purpose of locating class members for whom the OAMHS does not have a verified address.

- Department of Motor Vehicles
- MECMS
- APS Healthcare
- Riverview Psychiatric Center Admission and Discharge Data Sheets
- Census lists from participating Correctional Facilities
- Internet searches (White Pages, Google, Zaba Search, Infobell, etc)
- Newspaper obituaries
- Social Security Death Index

Over the past quarter, OAMHS received address information from the following sources that was used to update address information in EIS:

- US Postal Service (forwarding information)
- Hospital Admission Sheets (UR Emergency Involuntary billing information)
- Demographic information and assessments in EIS from CDCs, CSWs, ICMs

As OAMHS is no longer able to verify addresses directly through Social Security, the data specialists now send all returned letters to the SS office in clean envelopes that then are forwarded to clients for whom SS has an address. They (SS office) return a list noting those that they forwarded and anyone who may be deceased. OAMHS keeps the returned letters with the quarterly Location Efforts Report. Newly unverified client names are sent for verification quarterly, and those that continue to be unverified are only sent annually at the request of the SS Administration.

In April, the data specialists sent a quarterly mailing to all class members who are not in service (including class members living out of state) to inform them of the services that may be available to them, along with contact information for the Consent Decree Coordinators. 'Not in service' is defined as not receiving community support services (community integration, intensive community integration, intensive case management and assertive community treatment). All letters include a self-addressed, postage paid post card to be mailed back with address changes. If a letter is returned, it is re-sent if updated address information can be obtained through aforementioned process.

Address information is entered into EIS on a continuous basis. Data specialists keep documentation as to who received the quarterly mailing both in State and out of State, the response (numbers of postcards returned, number of postcards requesting contact from a CDC, letters returned, etc.), as well as an annual list of all class members, including those who are deceased. Any returned contact with client comments is forwarded to the Consent Decree Coordinator in the area where the client resides or to the assigned Out of State coordinator.

See table below for current data regarding class member numbers and location efforts.
