---

Effective October 31, 2015, the Maine Prescription Monitoring Program (PMP) is upgrading to online registration. Prescribers will be automatically registered, and the current paper application process will be eliminated.

*Any license type not listed below, other than a pharmacist, is considered a delegate.*

The first time you access the RxSentry system after October 31, 2015, you will be prompted to create a security question that will be used in the event that you need to reset your password. You will also be asked to either add address information or verify that your current personal information is correct.

The [RxSentry Training Guide for Data Requesters](#) can help guide you through the steps necessary to log in. If you need additional assistance, you can contact the PMP Help Desk at 866-792-3149.

#### DELEGATES:

- Delegates will now submit their applications using the online registration form.
- It is the delegate account holder's responsibility to notify the master account holder (supervisor) once they have been approved for an RxSentry account.
- Delegates can only access the accounts of master account holders to whom they are linked.
- It is the master account holder's responsibility to activate delegate accounts and associate them with the master account. The delegate account function is only available to master account holders (i.e., a delegate cannot link themselves to a master account.)
- Any delegate who is not linked to a master account will be deactivated.
- The [RxSentry Training Guide for Data Requesters](#) can help guide you through the steps necessary to log in. If you need additional assistance, you can contact the PMP Help Desk at 866-792-3149.
