## IMPORTANT

IF YOU TAKE THE RISK REDUCTION PROGRAM OR THE UNDER 21 PROGRAM:

*After your program is completed, you **may** be required to seek a 2 to 4 session clinical substance abuse evaluation based on the results of a self-assessment survey you take during your class.*

*The evaluation will have one of two findings:*

- A "Negative" finding means that there is no indication of a current substance abuse problem and you will not be referred to counseling.
- A "Positive" finding means that you need counseling for a substance abuse problem, and you will be required to complete treatment.

If you are referred to counseling, the number of sessions will depend on the extent of your problem and on your progress in treatment.

For any evaluation or treatment services, you must see a counselor who is certified by DEEP. DEEP will provide you with the names and phone numbers of approved counselors and agencies in your area and you will inform DEEP of your choice.

*Counselors and agencies are private businesses. You are responsible for paying for any services you receive.*

**What conditions must I meet before my driver's license or operating privileges may be restored from an OUI suspension by the Secretary of State?**

To get a suspended license restored, the convicted driver must satisfy certain requirements, which include:

- serving the entire suspension period set by the court and/or the Secretary of State;
- payment of the entire reinstatement fee;
- satisfy any other suspensions that may be in effect;
- Completion of the requirements of the Driver Education and Evaluation Programs (DEEP).
