Jessica Keyes, Town Clerk
208 Sanford Road
Wells, ME 04090

Re: Transplant Permit

Dear Ms. Keyes:

This letter is in response to your request to transplant seed clams as follows:

Start	Stop	Source	Destination	Supervisor	Approved
8/15/1/2016 12:00 P.M.	8/15/2016 3:00 P.M.	DEI	Drakes Island- All flats of the Inlet above a line beginning on the eastern shore from a point at the floodgate drainage mouth that is approximately 2000 ft. north of the western end of the Jetty Lane, and running westerly to the opposite shore; and is bordered to the east by Drake's Island Road.	Everett Leach-Warden	√

Note: Areas seeded with clams taken from Restricted areas must be closed for a period of 60 days, clams taken from Prohibited areas must be closed for a period of at least 6 months. This applies to any transplant listed above where 'Approved' is NOT checked.

This letter will serve as permission for the above activity provided that the listed Supervisor contacts, 24 hours before the start of the activity, the Municipal Shellfish Warden, the Marine Patrol Officer responsible for this area and the Marine Patrol Division I Office at 633-9595. You may call the Division I Office in advance to determine who will be the local officer on duty and obtain direct contact information.

If DMR can be of further assistance, please don't hesitate to contact me or your area biologist, Pete Thayer at 207-633-9539.

Sincerely,

Denis-Marc Nault
Shellfish Management Program Supervisor

cc: Pete Thayer, Area Biologist
Lt. Daniel White, Marine Patrol Division I
