Re: Transplant Permit

Dear Ms Perry:

This letter is in response to your request to transplant seed clams as follows:

Start	Stop	Source	Destination	Supervisor	Approved
11/9/2015 1:00PM	11/9/2015 4:00 PM	Upweller	Cushman Cove	Don James, Shellfish Chair	√
11/10/2015 2:00 PM	11/10/2015 5:00 PM	Upweller	Cushman Cove	Don James, Shellfish Chair	√
11/11/2015 3:00 PM	11/11/2015 6:00 PM	Upweller	Cushman Cove	Don James, Shellfish Chair	√

Note: Areas seeded with clams taken from Restricted areas **must** be closed for a period of 60 days, clams taken from Prohibited areas **must** be closed for a period of at least 6 months. This applies to any transplant listed above where 'Approved' is NOT checked.

A copy of the Transplant Activity Log has been attached along with the permit for the purpose of recording the activity. Under DMR regulation Chapter 7 a copy of the completed Transplant Activity Log must be sent to the Department within 10 days of the activity.

This letter will serve as permission for the above activity provided that the listed Supervisor contacts, 24 hours before the start of the activity, the Municipal Shellfish Warden, the Marine Patrol Officer responsible for this area and the Marine Patrol Division I Office at 633-9595. You may call the Division I Office in advance to determine who will be the local officer on duty and obtain direct contact information.

If DMR can be of further assistance, please don't hesitate to contact me or your area biologist Pete Thayer at 207-633-9539

Sincerely,

Denis-Marc Nault
Shellfish Management Program Supervisor

cc: Pete Thayer, Area Biologist
Lt. Daniel White, Marine Patrol Division I
