APPLICATION AGREEMENT/ REIMBURSEMENT REQUEST
2008-2009**

MAINE DEPARTMENT OF CONSERVATION
BUREAU OF PARKS AND LANDS
OFF ROAD VEHICLE DIVISION

NAME OF SNOWMOBILE
CLUB/MUNICIPALITY/COUNTY _____

ADDRESS _____

CITY _____ ZIP _____

**THIS GRANT IS DUE DECEMBER 31, 2008
(PAYOUT IS MAY 2009)**

Capital Equipment reimbursements will be based on the total cost of all requests that the Bureau of Parks & Lands approves and the funding available in the Capital Equipment Grant Fund.

The Bureau may reimburse applicants a percentage of capital equipment purchases from the Snowmobile Program's special capital equipment allotment. The percentage of reimbursement is determined annually by dividing the total revenue available for the year by the total dollar amount of all equipment purchases approved for reimbursement. The percentage is then applied to each approved purchase to determine the dollar amount of an individual grant.

The Off-Road Vehicle Division reserves the right to accept or reject all grant applications.

General Eligibility Requirements

The grant program is available to any political subdivision or an incorporated snowmobile club that participates in the bureau's trail grooming program (hereinafter referred to as "applicant" or "grantee").

To be eligible for the grant program, a snowmobile club must be incorporated and register with the Bureau's Snowmobile Program (*if club has never before registered with the Bureau*). Registration is done by providing the Bureau a completed copy of the organization's "Request for Taxpayer Identification Number" (IRS Form W-9) by December 1st to be eligible for grants awarded during the current winter season. The snowmobile club is also required to provide an Officer Update Form to the Bureau annually.

Amount of Grant

- (1) The Bureau shall reimburse applicants a percentage of the capital equipment purchase cost from the Snowmobile Program's capital equipment fund. The percentage of reimbursement is determined by comparing the money available in the fund as of May 1st of the year the grant is awarded, to the total cost of all equipment purchases approved for reimbursement. The resulting percentage is then applied to each approved purchase to determine the dollar amount of an individual grant. An applicant may request a grant for more than one piece of equipment in a year. The disbursement of funds is always subject to the availability of sufficient moneys in the Bureau's account for this purpose.
- (2) Equipment purchased under this program must cost a minimum of \$3,000 **PER UNIT** and be purchased after January 1st, 2008 to be considered under the Capital Equipment Grant.
