How many tens? How many ones?

Decomposing (breaking apart) Numbers

Choose a number. Show how many tens (strips) and how many ones (cubes).

|--|

For example: I choose the number 42. I break it into these parts: 10 + 10 + 10 + 10 + 1 + 1 (4 tens and 2 ones).

Tens and Ones Cut out units of ten and units of one.
