AAAS puts Climate Change in Spotlight

Those of you interested in climate change will find these two stories from Project 2061 very informative. – Anita

I. Project 2061 Promotes Climate Literacy

With new grants for developing instructional resources and for organizing a conference of informal science educators, Project 2061 is making climate science literacy a high priority for students and the public. Read the full story at:

<http://www.project2061.org/091029/publications/2061Connections/2009/2009-05a.htm>

II. Toward a Climate-Literate Citizenry: An Interview with Frank Niepold

What does a climate-literate person need to know and be able to do? NOAA's Frank Niepold has been deeply involved in defining climate science literacy and promoting its importance. Read the interview at:

<http://www.project2061.org/091029/publications/2061Connections/2009/2009-05b.htm>
