Dear Commissioner Gendron:

This letter is to inform you that we are not in a position to be able to complete our alternate plan at this time. We have not completed our budget process and are not in a position to be able to give final numbers in regard to transportation, system administration, special education or facilities and maintenance. We also have not figured out how we will adjust to the loss of subsidy that your school funding formula has given us.

At this time it is impossible to report anything further than our original submission to you.

Sincerely,

Michael C. Wright

Michael C Wright
Superintendent
Islesboro School Department
