GOVERNOR

JOHN E. MORRIS
COMMISSIONER

JAY BRADSHAW
DIRECTOR

The Medical Direction and Practices Board is seeking stakeholder input about future protocol changes. One method to do this will be monthly webinars to discuss the next section of the protocols that will be discussed by the MDPB. This effort is intended to give stakeholders an opportunity to comment on potential changes the medical directors will be discussing as well offer suggestions for other changes. Please follow the directions below to participate in these events.

Procedures:

- The Medical directors will have a brief slide set of items for discussion
- Maine EMS will facilitate the webinar and will pass questions or comments that come in electronically through the webinar system for Medical Director comment
- The opportunity for stakeholders to comment will be via Email, Twitter, or the integrated discussion board of StartMeeting. (Please see below for electronic means of communication)
- Due to time constraints questions not answered in the allotted time will be recorded; and Maine EMS will work with the respective Medical Director to develop aggregate responses
- Phones will be muted to eliminate background noise and ensure the Medical Director can be heard clearly. (Please see below for electronic means of communication)
- If a stakeholder intends to recommend a change we ask that they be prepared to send supporting documentation and evidence via email for the MDPB to review
- Meetings will be recorded for later review

On the day of the webinar individuals interested in participating through screen share will need to follow the link below.
