Area - 21 acres	Temperatures
	Surface - 72°F
Maximum depth - 13 feet	10 feet - 57°F

Principal fisheries: Largemouth bass, chain pickerel

Schoolhouse Pond is one of a series of small ponds situated just west of Fayette Ridge. This shallow pond is best suited for warmwater fisheries management. Largemouth bass were successfully introduced by Department biologists in 1959. Largemouths now provide the principal fishery at Schoolhouse.

Schoolhouse Pond is open to fishing for warmwater gamefish through the end of October. The pond is also open to ice fishing.

Surveyed - August, 1958
Resurveyed - 1963
(Revised, 1989)
Maine Department of Inland Fisheries and Wildlife
