Black-crowned Night-heron	<i>Nycticorax nycticorax</i>	X			T																						
Strigiformes (owls)																											
Short-eared Owl (Breeding)	<i>Asio flammeus</i>	X			T				X	X								X									

Current criteria ranked *Asio flammeus* as SGCN priority 1, however, species should be SGCN priority 2 based on professional discretion. Justification: Breeding population at edge of range and state listed, wintering birds a higher regional priority (Regional Spp. Of Greatest conservation need BCR 30 as wintering population). Rarity coincides with the vulnerability of grasslands in the northeast. Limited data: 1) Minimal detections during grassland bird surveys, 2) nest documented in Easton (1996), 3) territorial behavior Jonesport (1988), 4) individual present March and April Petit Manan NWR, and 5) historical observations reference "The Birds of Maine", Knight 1908 and "Maine Birds", Palmer 1949. May be present every winter, uncertainty of consistent breeding presence.
