Due to National Office by the last Tuesday of the Month for October 2006 through July 2007 as *AAsmrMMYY.txt* (AA = state alpha, MM = month, YY = 2 digit year)

NCA Summary Management Reports:

Due to Regional Office the last Tuesday of the Month as *AAncMMYY.txt* (AA = state alpha, MM = month, YY = 2 digit year)

Activity Status Code (Edit Code 025)

1 = Active. 2 = Inactive. 3 = Not Submitted (BLS only). 9 = pending

Quarter (Edit Code 005)

1 = Jan, Feb, Mar. 2 = Apr, May, Jun. 3 = Jul, Aug, Sep. 4 = Oct, Nov, Dec.

Transaction Code (Record Type)

T = Trailer H = Header D = Delete F = Full U = BLS updates P = Predecessor/Successor

Ownership Code/Old Ownership (when a necc is present) (Edit Codes 012/074)

1 = Federal government. 3 = Local government.
 2 = State government. 5 = Private sector.
 blank = State default for old Ownership code if response code blank and response year not the current fiscal year or if no ownership code change was made.

Organization Type Indicator (Edit Code N/A)

I = Individual. C = Corporation. P = Partnership. O = Other. blank = State default value.

Type of Coverage (Edit Code 039)

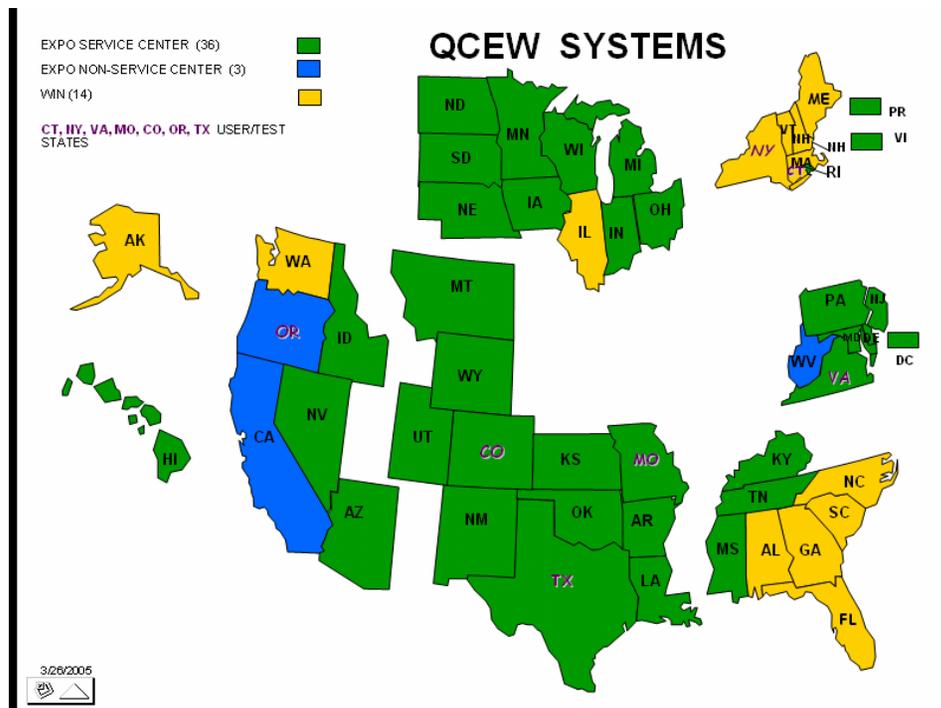

0 = Experience rated (contributory) (employer funded). These should be experience-rated, assigned a standard contributions rate, or similar or special tax rate as specified in the State UI laws. Employees do not contribute to UI trust fund.
 1 = Reimbursable. Certain nonprofit organizations, State or local government entities, and political sub divisions which elect or are required to pay an amount of taxes into the State UI trust fund in lieu of contributions as provided in the State UI laws.
 2 = Taxable (employer and employee funded). Employers deduct contributions from the employees' pay and include them with the required employer contributions.
 3 = Reimbursable (employer reimburses upon demand but the employee contributes on a periodic basis).
 8 = Non-subject accounts. (Exclude from EQUI.) These are accounts which do not meet UI or UCFE coverage requirements but provide data to State for other purposes.
 9 = Federal accounts covered under UCFE.

Multi Establishment Employer Indicator (Edit Code 040)

1 = Single establishment unit.
 2 = Multi-unit master record.
 3 = Subunit establishment level record for a multi-unit employer.
 4 = Multi-establishment employer reporting as a single unit due to unavailability of data, including refusals.
 5 = A subunit record on the state's file that actually represents a combination of establishments. Finer level breakouts not yet available.
 6 = Known multi establishment employer reporting as a single unit and not solicited for disaggregation because of small employment (< 10) in all secondary establishments combined.

County Code/Old County (when a necc is present) (Edit Codes 013/075/076)

Valid FIPS County codes for the State plus the County equivalent codes:
 900 = Master record if not using the primary county of all subunits in the State.
 995 = Statewide, locations in more than one county, or no primary county.
 996 = Foreign locations.
 998 = Out-of state locations.
 999 = Unknown locations (State default).
 blank = Old County code default is blank if response code and response year are blank or if no county code change was made.

Current Employment Statistics (CES) Indicator (Edit Code N/A)

C = CES reporter. blank = Not found on the CES file (State default value).

Township Code/Old Township (when a necc is present.) (Edit Codes 065/076)

Valid Township codes for the State plus the following Township equivalent codes:

- 900 = Master record if not using the primary township of all subunits in the State.
- 995 = Statewide, locations in more than one township, or no primary township.
- 996 = Foreign locations.
- 998 = Out-of state locations.
- 999 = Unknown locations in New England States and New Jersey.
- 000 = Default value for non-New England States (excluding New Jersey).
- blank = Default value for old township.

Mailing/Other Address Type (Edit Code 101)

- 1 = Physical address (physical and mailing address are the same).
- 2 = Mailing address (mail goes directly to the unit; may include the P.O. Box or RFD).
- 3 = Corporate central office mail address.
- 9 = Unknown Mailing/Other (M/O) address. State default if M/O Address is included.
- blank=If M/O Address is blank.

UI Address Type (Edit Code N/A)

- 1 = Physical address (physical and UI address are the same).
- 2 = Mailing address (mail goes directly to the unit; may include the P.O. Box or RFD).
- 3 = Corporate central office mail address.
- 9 = UI Address or Unknown address. State default if UI Address is included.
- blank=If UI Address is blank.

PLA Address Type (Edit Code N/A)

- C = PLA and county confirmed
- P = PLA provided but not geocodable
- R = PLA blank—worksite is a residence or private home
- S = PLA blank—sales agents working out of their own home
- G = government facility only providing city, State, and ZIP code but no street address
- B = BLS-approved bypass for missing PLA
- Blank = PLA is provided or missing but no bypass/override exists

Census ID

Definition: Census ID is a 15 digit field that is actually comprised of

- 2 digit State fips code
- 3 digit county code assigned by the geocoding software
- 6 digit tract code
- 1 digit block code
- 3 digit detailed block classification (this may or may not be assigned to a record based on the PLA)

Geocoding Software

- G = GeoStan, the BLS used software
- S = Other State-used software
- Blank = if no latitude and longitude assigned

Geocode Source

B = BLS-software assigned
S = State assigned
Blank = if no latitude and longitude assigned or other source

Location Code

The first character is always an "A," indicating an address location or "Z" indicating a zip-centroid location. The second character is either an "S," indicating a location on a street range, or an "X," indicating a location on an intersection of two streets, or a "C" indicating . The third character is a digit, indicating other qualities about the location.

Match Code (First Digit)

A Match was to an alias name record or alternate record
D Match is a small town with a P.O. Box and/or General Delivery only
E Error found, latitude and longitude not assigned
T Indicates a match to a street segment record.
X Match found was for an intersection of two streets
Y Same as X but indicates that an alias name record for one or both streets
Z No address given but the ZIP Code was verified as valid.

Address/Contact Source

R = ARS refiling A = CES Program E = Employer Contact F = OES Program O = Other
W = Web I = InfoUSA T = UI Tax system S = Status Determination Form

Nondisclosure Codes (Edit Code N/A) (Note: Exclude from UI account tally any zero accounts.)

0 Fully disclosable, including all Federal Government data
8 Secondary Nondisclosure
9 Nondisclosable (Primary nondisclosure assigned when the cell has less than variable number of UI accounts and/or at least one account in the cell has p% of the employment.)

Data Source (Edit Code N/A)

E = EDI record collected by EDIC. C = EDI sent and loaded from EDIC.
S = State-collected magnetic media W = MWR web collection
Q = QCR web collection X = future use
blank (default value) = All other sources.

Special Indicator (Edit Code N/A)

T = Federally recognized Indian Tribal Council. L = Reported by a Professional Employer
blank (State default value) = All other records. Organization.

Indicator Flags: 1st Month Employment; 2nd Month Employment; 3rd Month Employment; Total Wages; Taxable Wages; & Contributions Due (Edit Code 49/50/51/52/53/54)

Blank or R = Reported data.
A = Estimated/imputed using data reported to the CES program.
C = Changed (re-reported).
D = Reported from missing data notice.
E = Estimated/imputed single unit data. Imputed sub-unit or worksite data prorated from *imputed* parent/master record.
H = Hand-imputed (vs. system generated).
K = special system-generated imputation to reflect data impacted by a catastrophe
L = Late reported (overrides prior imputation).
M = Missing data.
N = Zero-filled pending resolution of long-term delinquent reporter
P = Prorated from *reported* parent/master to sub-unit or worksite.
S = Aggregated parent/master from reported MWR or EDI data.
W = Estimated/imputed using data *reported* on quarterly wage records
X = Non-numeric data zero-filled pending further action.

Field Lock Position

00 = No fields locked to update 04 = Legal Name locked 16 = Telephone number locked
01 = Physical Address locked 08 = Trade Name/DBA locked 32 = Attention name locked
02 = Mailing/Other Address locked

ARS Response Code (Edit Code 046)

Non-respondents

Blank State default value, for records not included in the survey

- 00 Mailable, not yet mailed
- 01 Mailable, mailed once
- 02 Mailable, mailed twice
- 03 Mailable, mailed three times
- 04 Mailable, mailed four times
- 11 Clean subunit record in a mailable multi
- 12 Clean record in a multi, but unmailable due to errors on another record
- 86 On the control file but either not mailed or not remailed; excluded from response rates
- 98 Carryover nonrespondent from prior refiling; mail only once in current ARS
- 99 Unmailable due to errors (single, master, or subunit)

Responses – Unusable Response

- 30 CCS I-error on both the State and BLS Micro file
- 31 Record not reviewed, pending
- 32 Industry information centrally collected by BLS (no longer assigned after 2003).
- 33 BLS-assigned, submitted as 46/50/57/76/77 but has a CCS I-error on BLS Micro file
- 34 BLS-assigned, submitted as 46/50/57/76 but without a true code change on BLS File
- 35 BLS-assigned, submitted with Comment Code 81 and a true code change but not with a Response Code of 30, 46, 50, 57, 76, or 77
- 63 Post Office return
- 64 Out of Business
- 65 Refusal

Responses – Usable Response or System-assigned Codes

- 41 Reviewed, no refiling changes (no NAICS, county, township (New England or New Jersey only) or ownership change) on a single or subunit record. Assigned to a reviewed master record (MEEI =2) with or without any code changes or on refiling records that changed from unclassified to classified area where the NAICS is unchanged. Also used for records originally included in split industries that remain in the same six-digit code.
- 42 Employer misunderstood industry description but codes are correct. NAICS 2007 code either not assigned or remains in the same 6-digit code as the 2002-based NAICS code.
- 43 TRS respondent to ARS refiling. No changes (no longer assigned after 2003).
- 46 Clean record with CCS updates from the ARS refiling. Noneconomic code change made to NAICS, county, township (New England and New Jersey only) or ownership. Change did not result in a NAICS 2007 code assignment or the NAICS code remains in the same six-digit code as the 2002-based NAICS code.
- 50 Code changes from non-refiling sources. Noneconomic code change made to NAICS, county, township (New England and New Jersey only) or ownership but not from the ARS refiling. NAICS 2007 code not assigned or the NAICS code remains in the same six-digit code as the 2002-based NAICS code.
- 57 Code changes from non-refiling sources. Noneconomic code change to 2002 NAICS with different 2007 NAICS code. New unit with different 2002 and 2007 NAICS codes
- 76 Code change to industry code, county, township (New England and New Jersey only) or ownership also results in a NAICS 2007 code assignment.

ARS Response Code (continued) (Edit Code 046)

- 77 2007 NAICS code assigned during refiling or from other sources but with no correction to the 2002-based NAICS code. (Employer may or may not have misunderstood the industry description but the 2002-based NAICS code was correct.) There were no changes to the county, township (New England and New Jersey only) or ownership codes. Response code 77 will also be system-assigned to those industries that directly map from a specific 2002-based code to one 2007-based code where no other noneconomic code change is made.
- 78 NAICS code system-assigned (no longer assigned after 2001)
- 79 NAICS code system-assigned (no longer assigned after 2001)
