2. Answer all questions completely and clearly.
3. Provide complete address of current hospital affiliation.
4. Provide a photocopy of a current, active, unrestricted medical license from another state/province.
5. Submit the completed application together with all supporting documents and the NON-REFUNDABLE fee of $100.00 to the Board of Licensure in Medicine at least thirty days prior to the desired effective date of licensure.
6. Malpractice Claims:

   Your insurance carrier or attorney must provide an independent detailed explanation of all malpractice claims. This information must be received directly from the insurance company or attorney. This information is in addition to your personal explanation. Application form items 5.13 & 5.14, regarding professional (malpractice) liability claims experience, are the questions most likely to generate follow-up letters from the Board staff and delay your licensure if not answered completely. Report all claims of which you have been noticed, as well as all claims from which you were dismissed as a defendant or for which your insurance company made a settlement of any kind with the plaintiff, or any claim for which a court found you liable in any degree. A reporting form is provided at page 11. Claims against a professional corporation are considered a claim against the individual licensee who provided the professional services in dispute. To be complete, your supplemental explanation must include, for each such claim reported, a full description using the Professional (Malpractice) Liability Claims Experience Form attached. See the following fictitious example:

   Identity of Case: Burns v. John B. Doe, MD, Samuel E. Smith, MD, Topeka Woman’s Hospital, Inc. et al.; Kansas Third Circuit Court, Topeka, Case #89-10203

Mandated Reporter Requirements for Suspected Child Abuse

Maine law requires that physicians immediately report or cause a report to be made to the Maine Department of Health and Human Services (DHHS) when the physician knows or has reasonable cause to suspect that a child has been or is likely to be abused or neglected or that a suspicious child death has occurred. In addition, if a child is under 6 months of age or otherwise non-ambulatory, Maine law requires physicians to immediately report to DHHS if that child exhibits evidence of the following: fracture of a bone; substantial bruising or multiple bruises; subdural hematoma; burns; poisoning; or injury resulting in substantial bleeding, soft tissue swelling or impairment of an organ, except that the reporting of injuries occurring as a result of the delivery of a child attended by a licensed medical practitioner or the reporting of burns or other injuries occurring as a result of medical treatment following the delivery of the child when the child remains hospitalized following the delivery is not required. Please refer to 22 M.R.S. § 4011-A for all reporting requirements.

Mandated Reporter Training and additional information regarding mandated reporting can be found at: http://www.maine.gov/dhhs/ocfs/cps/

The mere fact of treatment for medical, mental health or substance misuse is not, in itself, a basis on which an applicant is ordinarily denied licensure when he/she has demonstrated personal responsibility and maturity in dealing with these issues. The Board encourages applicants who may benefit from such treatment to seek it. The Board may deny a license to applicants whose ability to function in the practice of medicine or whose behavior, judgment, and understanding is impaired by substance misuse or a medical or mental health condition.
