

Traffic Alert

We hope you enjoy the new, improved and safer Mount Vernon Avenue!

For nearly a year, MaineDOT and its contractor, Pratt & Sons Inc., have been working on a \$4.3 million road reconstruction project on Mount Vernon Avenue. In addition to the full reconstruction, the project included water and sewer improvements, new drainage, new retaining walls and new sidewalks. All of this work meant significant traffic impacts for local businesses, motorists and residents.

We wanted to thank you for your patience and safe driving through the work zones!

As an added bonus, the City of Augusta and MaineDOT have agreed that the temporary left turn onto Townsend Road will become permanent.

Please remember that construction season means work zones are active throughout the state. Please drive carefully.
