**South to North Maps and Descriptions
2014**

This map of the Maine portion of the United States Bicycle Route 1 is published by the Maine Department of Transportation (MaineDOT) as an aid to bicyclists. Most routes shown on this tour are on regular state and local roads used by automobiles, trucks, buses, and other motorized vehicles. The MaineDOT in no way warrants the safety or suitability of the routes indicated on this tour for shared bicycle/motor vehicle use or for use by young and/or inexperienced riders. Bicyclists assume the risk for their own safety at all times when traveling on the indicated routes. Inclusion in this book does not indicate that the roads are in good condition or currently or ever will have paved shoulders. Although the MaineDOT has made a reasonable effort to ensure that the information contained in this guide is correct as of the publication date, the actual conditions that riders encounter may vary, and the Department in no way warrants its accuracy. Mileages are estimates only. MaineDOT assumes no liability for personal injuries or property damage suffered by bicyclists.

Mapbook User Guide

Roads in this document are designated by the federal or state route numbers, and / or the road name. The name will be in parenthesis after the route number. Not all road segments have names. Numbered routes (federal and or state) can overlap. You may see multiple numbers on a single road. The maps are labeled accordingly. **Example:**

Map Page Number	Road Segment	Estimated Miles traveled on this Road Segment	Travel Information	Turn or transition and Road designation (name)	General Direction
1	ME 103 (Old Post Rd.)	0.1	Old Post Rd. continues to the right	Bear left on Government St.	North
1	Government St.	0.2	Me 103 merges with Government St. Bear left to stay with Government St.	Right on US 202/ ME 11/ME100	Northwest
1	US 202/ME 11/ ME 100	4.2	Cross the Leeds town line Cross the Monmouth town line	Right onto Norris Hill Rd.	Northeast

If a road segment changes names along its course, every effort was made to list all names for that road segment you will travel on, in the order you will encounter them and a possible land-mark where the change takes place. The land-mark will be in the ‘Travel Information’ column. **Example:**

1	Dennett Rd.\ State Rd.	6.9	Dennett Rd. becomes State Rd. at the Eliot town line.	Left onto Worster Rd.	North
---	------------------------	-----	---	-----------------------	-------

Every effort is made to inform you what town you are entering along the bike route. On the description page, town line crossings are listed in the ‘Travel Information’ column. **Example:**

5	Downing Rd.	1.9	Cross the Arundel town line	Right onto Limerick Rd.	Northeast
---	-------------	-----	-----------------------------	-------------------------	-----------

In the ‘Travel Information’ column, the intent is to list information in the order that you will encounter it as you approach it from the ‘south to north’ direction. There is a map page index on the back of the guide.

Cautions, one ways, and very important information are highlighted in red. Off-route excursions are highlighted in green.

(Split intersections are intersections that have islands, or some form of separation creating short one way sections of roadway on one or more legs of the intersection)

18	US 201 (Water St.)	0.6	Use caution , heavy, but slow traffic, and narrow streets in downtown Hallowell	Bear Right back onto KRRT At Winthrop St. by waterfront parking	North
18	Kennebec River Rail Trail	2.0	Cross the Augusta town line. Kennebec Valley YMCA connector path (unmarked) on your left just past the water treatment plant. Go thru parking lot (at the trails end, 1/4 mile marker) of Maine Housing Authority to north end and out the drive way on your left	Through the parking lot, Right onto Water St.	North
18	ME 4 (Portland St.)	0.4	South Berwick town center.	Right onto Agamenticus Rd. This is a split intersection	Northeast
18	Agamenticus Rd.\ Knights Pond Rd.	3.8	Bear right onto Agamenticus Rd. This is one way.	Right onto Hooper Sands Rd.	East

This mapbook is oriented ‘south to north’ from Kittery to Calais. On some occasions, the southbound route may vary for short distances. Efforts have been made to show the southbound alternative using a different color (as illustrated below [USBR 1 SB]), map insets and alternative instructions. Pay particular attention to the North arrow at the bottom of the page, as maps are not all oriented the same.

Not all legend items are in every map.

United States Bicycle Route 1

This map of the Maine portion of the United States Bicycle Route 1 is published by the Maine Department of Transportation (MaineDOT) as an aid to bicyclist. All routes shown on this tour are on regular state and local roads used by automobiles, trucks, buses, and other motorized vehicles. The MaineDOT in no way warrants the safety or suitability of the routes indicated on this tour for shared bicycle/motor vehicle use or for use by young and/or inexperienced riders. Bicyclists assume the risk for their own safety at all times when traveling on the indicated routes. Inclusion in this book does not indicate that the roads are in good condition or currently or ever will have paved shoulders. Although the MaineDOT has made a reasonable effort to ensure that the information contained in this guide is correct as of the publication date, the actual conditions that riders encounter may vary, and the Department in no way warrants its accuracy. MaineDOT assumes no liability for personal injuries or property damage suffered by bicyclists.
