OFFER

The Bidder hereby offers to remove the snow, control ice, and perform all other work indicated in the Contract for Snow Removal (hereinafter "Contract") for the entire term of the Contract and in compliance with all the terms, conditions, and representations of the same on the entire section (s) of highway listed below:

Section No. R2-4:

In Newcastle: U.S. Route 1B from the junction of U.S. Route 1 in Newcastle, including the divided lanes, and extending northerly to the Damariscotta town line for a distance of 0.68 miles.

In Damariscotta: U.S. Route 1B from the Newcastle town line and extending northerly to the junction of U. S. Route 1 in Damariscotta for a total of 2.72 miles (5.84 lane miles). Work shall include maintaining the center turn lanes on Route 1B..

The work will be accomplished using the following indicated approach (CHECK ONLY ONE):

- Anti-icing Approach** – Consists of using calibrated equipment to spread salt early in the storm, and as necessary throughout, to prevent snow and ice from bonding to the pavement. Sand is used on occasion to address spot locations and to treat the roads when pavement temperatures are below 15 degrees F.
- Deicing Approach** – Consists of spreading sand in conjunction with plowing operations to provide traction. Straight salt is primarily used in the cleanup effort once the precipitation has ceased.

The Department will determine the Apparent Low Bidder through “Comparison Value” which includes consideration of the bid price and the approach that will be used by the Contractor as designated in their Bid for Snow Plowing and Ice Control. The lowest bid price will be determined first. If the lowest bidder proposes to utilize an anti-icing approach, that bidder will be recognized as the Apparent Low Bidder and the Department will confirm the remaining contract requirements before making an award. If the lowest bidder proposes to utilize a deicing approach, that bidder’s price will be increased by 15% (multiplied by 1.15) to establish a “Comparison Value” that will then be compared to the remaining bidders. Any bidders providing the lowest anti-icing approach bid that is also lower than the “comparison value” of the lowest deicing approach bid will be recognized as the Apparent Low Bidder for award purposes. If there are no bids that fall into this category, the apparent low bidder will be recognized as the lowest deicing approach bid.

As a minimum, the Bidder will submit a Bid Package consisting of the Notice to Contractors, the completed Acknowledgement of Bid Amendments form, the completed and signed Bid for Snow Plowing and Ice Control form, two copies of the completed and signed Contract for Snow Plowing and Ice Control form and any other Certifications or Bid Requirements listed in the Bid Book.”

By signing below, the Bidder (1) represents that the Bidder has examined the “Contract for Snow Plowing & Ice Control”, all documents referenced in said Contract, and the section of highway referenced above such that the Bidder has sufficient knowledge to properly price the work, (2) represents that the Bidder has given the Department notice of any errors or ambiguities related to the documents or the work that have been discovered by the Bidder, and (3) agrees to perform the work in strict accordance with the terms and conditions of the Contract.

(207) 624-8200

7. Work Standards

(a) Contractor will commence plowing and material application operations no later than when snow on the pavement has reached a depth of one-half inch if the snow is wet and one inch if dry. Operations will continue until the highways are cleared of snow to the outside shoulders. During severe storms or drifting, plows will be operated so as to maintain two-way traffic. Immediately after the extreme conditions have subsided snow will be removed to the outside of the shoulders of the highways. Contractor's equipment must be located within a 10-mile radius of the project. Contractor must have supervisory personnel or radio equipped vehicles situated so that messages of urgency can reach the plowing or sanding vehicles within a half hour period.

(b) The Contractor shall use appropriate methods and practices of plowing and material application to ensure continuity of operations with adjacent plow routes that may be addressed by municipal forces, state forces, or other contractors. Such methods shall also assure that the speed of the plows is low enough to assure efficient plowing and material use and that appropriate care is taken to minimize the potential for damage to personal property adjacent to the highway (such as mailboxes).

(c) At such times as the Department's Representative shall direct the Contractor will remove compacted snow and ice from the highway, insofar as possible, so that 3 ½ feet of pavement will be exposed on each side of the centerline. If deemed necessary by the Department's Representative the Contractor may be required to remove all compacted snow and ice on the paved portion of the highway.

(d) The Contractor shall schedule work such that by noon of the day following the end of a storm, three and a half (3-1/2) feet of the pavement will be exposed on each side of the centerline.

8. Equipment Requirements. The Contractor must furnish the equipment listed in its “Bid For Snow Removal & Ice Control Contract”, plus such additional equipment that may be necessary to perform this contract in an efficient and workmanlike manner as determined by the Department’s Representative.

9. Sand & Salt Requirements.

(a) The Contractor agrees to provide sufficient winter sand and salt for operations required by this agreement. The Department estimates that the following approximate quantities of solid materials will be required to address a typical winter season:

Deicing Approach: 290 cubic yards of winter sand (mixed with approximately 15 tons of salt), and in addition to approximately 50 tons of straight salt.

Anti-icing Approach: 90 tons of salt, in addition to approximately 30 cubic yards of winter sand (mixed with approximately 1 ½ tons of salt).

(b) Maximum gradation of sand shall be ½ inch, and all sand will be screened to that size prior to use on the highway.

(c) The Contractor must mix between 90-110 pounds of salt with each cubic yard of sand before the sand is stockpiled.

(d) Plow trucks must be equipped with either tailgate or hopper spreaders, which are capable of calibrating the amount of sand/salt spread per mile to ensure evenness of application. When the application of pure salt is used, the Contractor shall do so in such a manner to avoid the application of excessive quantities. The Contractor agrees to comply with the directions of the Department’s Representative concerning the application of pure salt. In most cases, the use of pure salt in an anti-icing strategy will be in accordance with the application rates specified in Table A, attached hereto.

(e) Contractor agrees to pay particular attention to the sanding of railroad crossings, hills, curves and intersections, and to apply extra sand and salt to such locations when necessary. Plow blades shall be raised sufficiently at railroad crossings to prevent damages to the rail tracks. Any residue of snow on the tracks shall be removed by hand if necessary.

(f) The Contractor agrees to specify the intended location of the sand/salt stockpile that will be used in the course of fulfilling this Contract. Prior to September 1 of each subsequent year that the contract is effective, the Contractor must also specify whether the location of any sand/salt stockpiles will change. The Contractor further agrees that all sand/salt stockpiles must be in compliance with all local, state, and federal rules, regulations, and statutes. Specific attention is directed to the Maine DEP’s rules for the siting and operation of sand/salt stockpiles

(<http://www.state.me.us/dep/blwq/docstand/sandsalt/index.htm>). If the contractor does not have the ability to use an existing, approved site for a sand/salt stockpile, it must be stated in

the submittal and the Department will discuss potential options with the apparent low bidder. If the bidder is ultimately unsuccessful in obtaining a suitable location for a sand/salt stockpile, this shall be grounds for dismissal of the bid. The Contractor agrees to indemnify the Department for any liability, claims, demands, causes of action or damages incurred as a result of the use of, or stockpiling of sand and salt.

(g) Stockpiles of sand will be so located as to permit minimum travel time to critical areas and deadheading for reloading. The maximum distance between sand/salt stockpiles shall be twenty (20) miles.

(h) Contractor agrees to have all sand/salt stockpiles established by October 15 of each year that this contract is in effect.

(i) The Contractor shall, at the end of each storm event, record the total material quantities used in performing the Work. Such quantities shall be maintained in a season log that indicates the types of materials used and the corresponding dates of the storm events that occurred throughout each winter season. This seasonal log must be submitted to the following address prior to final payment at the end of each Winter Season: *MaineDOT, Highway Maintenance Engineer, 16 State House Station, Augusta, ME 04333*

10. Property Damage. The Contractor shall be responsible for all damage to public or private property of any kind resulting from any act, omission, neglect, or misconduct of the Contractor including but not limited to guard rail, guard rail posts, signs, sign post or guard posts. The preceding sentence includes damage to vehicles. Contractor agrees to reimburse the Department for the replacement of guard rail, guard rail posts, signs, sign post or guard posts damaged by the Contractor if resulting from the Contractor's negligence as determined by the Department's Representative. The Department may repair or replace the damaged property without liability to the Department with its own forces or with Contracted forces, and all costs will be deducted from amounts otherwise due the Contractor.

11. Performance and Payment Bonds. The performance and payment bonds are required if the annual payment amount of this Contract is greater than, or becomes greater than (through annual adjustments), \$125,000. If required, said bonds must be in the amount of 100% of the contract price and must be procured from a company that is (1) organized and operating in the United States licensed or approved to do business in the State of Maine by the State of Maine Department of Business Regulation, Bureau of Insurance and (2) listed on the latest Federal Department of The Treasury listing for "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies". The bonds must be payable to the "Treasurer - State of Maine" and must be on the Department's forms (or exact copies thereof) or must not contain any significant variations from said forms as determined in the sole discretion of the Department. By issuing, executing, or becoming potentially obligated under a bond, the surety agrees to be bound by all of the terms of the Contract, including those related to the Department's self-help remedy provided in Contract.

12. Termination.

(a) Notwithstanding any other provision of this Contract, the Contractor and/or the Surety shall be in default and the Department, in its sole discretion may terminate this Contract, if the Contractor and/or the Surety: (i) fails to begin the work as required by the Contract; (ii) fails to perform the work with sufficient workers and equipment or materials to meet the terms of the Contract; (iii) discontinues the prosecution of the work; (iv) fails to resume work which has been discontinued within a reasonable time after notice to do so; (v) subcontracts any of the work without the approval of the Department; (vi) becomes insolvent, files for bankruptcy, allows any final judgment to stand against him unsatisfied for a period of ten days, or makes an assignment for the benefit of creditors without authorization by the Department; or (vii) fails to perform the Work in substantial conformity with any material provision of the Contract as determined by the Department; (viii) fails to perform the Work in a satisfactory manner as determined solely by the Department.

The Department may remedy such noncompliance with Departmental or contracted forces and terminate the Contract and/or deduct the cost thereof from payments otherwise due the Contractor.

Notice of termination, and the reasons for such, shall be provided in writing by certified mail or personal delivery to the Contractor. In emergency situations, notice may be provided verbally with written notice mailed or delivered as soon thereafter as practicable.

At its sole option, the Department, in the event that circumstances allow, may provide the Contractor with an opportunity to cure any of the above deficiencies without waiving its right to terminate.

(b) The Department may terminate this Contract for convenience for any reason that is in the best interest of the Department. Such reason may include non-appropriation of funds by the Maine legislature. Terminations caused without the fault or and for reasons beyond the control of the Contractor shall be considered terminations for convenience. The Department will notify the Contractor of such terminations by sending a Notice of Termination for Convenience.

In case of a termination for convenience, all work completed as of the date of termination will be paid by prorating by date all remaining amounts payable under this Contract. Contractor agrees it will have no claim for any other amounts including consequential damages, lost profits, or lost opportunity costs.

13. General Provisions

(a) Definition. The word "compact" is defined by 23 M.R.S.A. § 1001.

(c) Nondiscrimination. The Contractor agrees to comply with the nondiscrimination and affirmative action provisions at 5 M.R.S.A. § 784 (2), which are hereby incorporated by reference.

the submittal and the Department will discuss potential options with the apparent low bidder. If the bidder is ultimately unsuccessful in obtaining a suitable location for a sand/salt stockpile, this shall be grounds for dismissal of the bid. The Contractor agrees to indemnify the Department for any liability, claims, demands, causes of action or damages incurred as a result of the use of, or stockpiling of sand and salt.

(h) Contractor agrees to have all sand/salt stockpiles established by October 15 of each year that this contract is in effect.

(i) The Contractor shall, at the end of each storm event, record the total material quantities used in performing the Work. The Department may repair or replace the damaged property without liability to the Department with its own forces or with Contracted forces, and all costs will be deducted from amounts otherwise due the Contractor.

By issuing, executing, or becoming potentially obligated under a bond, the surety agrees to be bound by all of the terms of the Contract, including those related to the Department's self-help remedy provided in Contract.

12. Termination.

The Department may remedy such noncompliance with Departmental or contracted forces and terminate the Contract and/or deduct the cost thereof from payments otherwise due the Contractor.

Notice of termination, and the reasons for such, shall be provided in writing by certified mail or personal delivery to the Contractor. In emergency situations, notice may be provided verbally with written notice mailed or delivered as soon thereafter as practicable.

At its sole option, the Department, in the event that circumstances allow, may provide the Contractor with an opportunity to cure any of the above deficiencies without waiving its right to terminate.

(b) The Department may terminate this Contract for convenience for any reason that is in the best interest of the Department. Such reason may include non-appropriation of funds by the Maine legislature. Terminations caused without the fault or and for reasons beyond the control of the Contractor shall be considered terminations for convenience. The Department will notify the Contractor of such terminations by sending a Notice of Termination for Convenience.
