SAMPLE

Appendix A

MAINE DEPARTMENT OF TRANSPORTATION REQUEST FOR PROPOSALS FOR REGION 1 ELECTRICAL SERVICES

The MaineDOT is accepting Proposals with intent to award contracts for the purpose of providing the MaineDOT, Region 1 area, with electrical services on an as needed basis. These Contracts will not include Work that falls under Capital Work Plan or Program projects, moveable bridges, separately advertised projects, Traffic Engineering services or Ferry/Marine services. The contracts will be awarded for a one year period and may be renewed for two additional one year periods if mutually agreed upon by the contractor and the Department.

Proposals from bidders statewide are welcome and contracts will be executed with all bidders who meet the requirements and specifications of this RFP. Each contract will obligate each approved bidder to perform work pursuant to an Assignment Letter at bid prices and will be assigned to the contractor using criteria as stated in Section II, Work Assignments.

I. Scope of Work:

- a. As Work arises, the MaineDOT will assign work to the Contractor by Assignment Letters using the process stated in Section II. This Work is to include but not limited to general electrical maintenance and repairs within MaineDOT Region 1 area, (exclusion areas are indicated above) which include various locations in the Counties of Androscoggin, Cumberland, Oxford, Sagadahoc and York..
- b. Assigned work will be performed at the bid rates as stated in the "Schedule of Items". Any item not contained in this "Schedule of Items" will be decided and agreed upon between the MaineDOT and the Contractor. The Contractor will receive the Actual Cost of Materials including freight and Delivery charges (but excluding any sale or use tax) plus a single 15 percent markup. MaineDOT will determine which materials will be purchased by the Contractor and which will be purchased by MaineDOT.
- c. Contractor will begin billing their time from the time they arrive on a specific job site until the Contractor has left the job site for each Work Assignment. All Travel time including traveling to and from the job site and picking up any parts and materials will be considered incidental and shall not be measured for payment.

II. Work Assignments

Basis of Award and Assignment Letters: The Department and each responsive qualified bidder will enter into a Contract that will obligate each bidder to perform work pursuant to an Assignment Letter at prices listed by the bidder in the Schedule of Items depending upon the needs of the Department and the response and ability of the bidder according to the following terms. In the case work arises, that the Department has determined can best be addressed using one of these contracts, Work will be assigned under these contracts according to the following process and criteria: The Contractor with the lowest schedule of Items, with the response and ability to perform scheduled Work in allotted time, with the response and ability to perform emergency Work immediately, will have first option to perform work pursuant to an Assignment Letter. If this Contractor is unable to accept the work, then the Contract Administrator will contact the contractor that is estimated to have the next lowest cost and with the response and ability to see if that bidder will accept the assignment. If the next bidder is unable to accept the work, then the Contract Administrator will contact the next lowest bidder, and subsequent bidders in ascending order of the amount of their bids and other criteria, until a bidder

accepts the assignment. Upon mutual agreement, an Assignment Letter will then be sent to the successful bidder. The Work described in this letter will become part of the Contract.

- 1st Incident: If the Contractor does not take corrective action within 2 days upon receipt of verbal warning, the Department will issue a written warning.
- 2nd Incident: The Department will issue a written warning.
- 3rd Incident: The Department may (A) give written Notice of Default to the Contractor and immediately terminate the Contract by written Notice of Termination, or (B) take prosecution of the Work away from the Contractor without violating the Contract.

If Default occurs, the Department may give written Notice of Default to the Contractor. Failure to give Notice of Default is in no way a waiver by the Department of any provision of the Contract. In this event, the Department may enter into an Agreement with another entity for the Completion of the Work, or use such other methods as in the opinion of the Department are required for the Completion of the intent of the Contract in an acceptable and timely manner. Termination of the Contract or portion thereof shall not relieve the Contractor of its Contractual responsibilities for the Work completed (including warranty obligations), nor shall it relieve the Surety of its obligation for claims arising from the Work or the Contract. The Department will pay for all Accepted items of Work as of the date of Termination at agreed upon prices. The Contractor shall make all Work records available to the Department upon request regarding payment under this Section.
