COMMISSIONER

October 14, 2011
Subject: **Mini-Excavator**
Location: **Region 4**
Amendment No. 1

Dear Sir/Ms:

Make the following changes to the Bid Document:

In the Bid Book, (page 11), **REMOVE** the "SCHEDULE OF ITEMS", 1 page undated and **REPLACE** with the attached new "SCHEDULE OF ITEMS", 1 page dated 111014.

In the Bid Book, Special Provisions, Mini Excavator Region 4 (page 23), Equipment Specifications and Terms, **REPLACE** the bullet "Excavators shall come with a 24" digging bucket and angle dozer blade with float function." with the following words "**Excavators shall come with a 24" digging bucket and dozer blade with float function.**" Make this change in pen and ink.

In the Bid Book, Special Provisions, Mini Excavator Region 4 (page 23), Equipment Specifications and Terms, in the bullet beginning "Excavators shall come with an identified, manufacturer approved lifting point." **DELETE** the second sentence that states "**If the lifting point is located on the bucket, both buckets must be equipped.**" Make this change in pen and ink.

The following questions have been received:

Question: The dozer blade is mentioned with the 24" digging bucket – question is should it be a hyd angle ditching bucket? It mentions both buckets further down on lifting points.

Response: The excavators shall come with one bucket, a 24" digging bucket, and an dozer blade with float function.

Question: The specs in the bid state the following:

Excavator shall come with 24" digging bucket and angle dozer blade with float function.

Excavator shall come with a hydraulically lifted dozer blade.

Do these two requirements contradict each other or does this just mean that they want a "hydraulically lifted angled dozer blade with float function"?

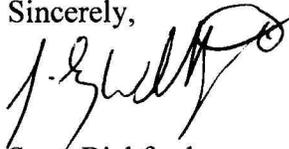

PRINTED ON RECYCLED PAPER

Response: We want a hydraulically lifted dozer blade with float function.

Consider these changes and information prior to submitting your bid on October 26, 2011.

Sincerely,

for Scott Bickford
