018350.02 & 018350.03
Amendment No. 1

David Bernhardt
COMMISSIONER

Dear Sir/Ms:

Make the following changes to the Bid Document:

In the Bid Book (page 9) "NOTICE TO CONTRACTORS" in the paragraph that begins "For general information regarding Bidding ..." **CHANGE** the third sentence to read as follows; "**For Project-specific information fax all questions to Project Manager Gail MacMunn at (207)624-3431.**" Make this change in pen and ink.

In the Bid Book (page 23) "APPENDIX A", at the end of the section (Page 4 of 4 and above "643.18. Method of Measurement") **ADD** the following in pen and ink:

4. Pole:

a. The pole shall be 20 feet for direct embedment resulting in above ground height of 16 feet.

b. The pole shall have a weatherproof cap at one end."

The following question has been received:

Question: Can more detail on the 20' Steel Poles to be supplied with the Rapid Flash Ped Signs be provided? Are these poles for direct embedment with an overall height of approximately 14' or are they to be supplied with a screw on square base and anchor bolts for use with a concrete foundation or should they be supplied with a welded on shoe base and anchor bolts?

Response: It is a 20 foot pole for direct embedment to get actual above ground height of 16 feet.

Consider this change and information prior to submitting your bid on April 25, 2012.

Sincerely,

George Macdougall
Acting Contracts & Specifications Engineer
