AUGUSTA, MAINE 04333-0016

David Bernhardt  
COMMISSIONER

May 6, 2014  
Subject: **Saint George**  
State WIN: 019267.00  
**Amendment No. 1**

Dear Sir/Ms:

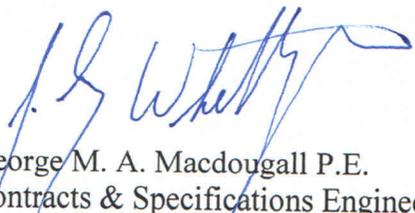

Make the following changes to the bid document:

**Question:** In regards to the RCP. Epoxy coated reinforcing is not available for circular pipe and therefore is not used. Pipe subjected to marine exposures typically have steel reinforcing with 2" of concrete cover verses the more typical 1" cover as well as an enhanced mix design. Is the department willing to consider this information as an alternative to the listed Spec of "LD concrete with epoxy coated rebar?"

**Response:** Non- epoxy coated steel reinforcing can be used with a minimum of 2" of concrete cover and Calcium Nitrite being added to the proposed mix at 3 gal per cubic yard dosage rate.

Consider these changes and information prior to submitting your bid on May 7, 2014.

Sincerely,

  
George M. A. Macdougall P.E.  
Contracts & Specifications Engineer
