DEPARTMENT OF TRANSPORTATION  
16 STATE HOUSE STATION  
AUGUSTA, MAINE 04333-0016

David Bernhardt  
COMMISSIONER

April 9, 2015  
Subject: pavement markings  
NO WIN: PH020581.15  
Location: **statewide**  
**Amendment No. 1**

Dear Sir/Ms:

The following questions have been received:

**Question:** Looking at the project its noted that there are no 652. item numbers for the Traffic Control/Traffic Officers/Maintenance of Traffic which would make up a lot of the cost on this project. Was this a oversight or was the intention to lump sum these items into the pavement marking item?

**Response:** As per Special Provision 627.75, White or Yellow Pavement & Curb Marking (plan quantity), Maintenance of Traffic Control Devices are incidental and to be paid as 627.75.

**Question:** In terms of traffic control is the use of blue lights going to be required on this project or will it be up to the discretion of the Contractor?

**Response:** Any and all Maintenance of Traffic Control devices will be used utilized and included in the Contractors TCP (Traffic Control Plan) to insure reasonable protection for the public and construction workers according to the latest edition of the MUTCD, NCHRP 350 and as required by the field conditions at the time of application.

Consider this information prior to submitting your bid on **April 15, 2015**.

Sincerely,

George M. A. Macdougall P.E.  
Contracts & Specifications Engineer
