

Traffic Counting Loan Program

The MaineDOT Traffic Engineering Division has a limited number of traffic counters available for free loan to Maine towns and cities. If your town wants to borrow a set, you can have it for up to 2 weeks and count traffic on as many roads as you want to within that 2 week period. All counts have to be done on weekdays for a minimum of 24 consecutive hours.

If you're interested, contact Debbie Morgan at 624-3606 or by e-mail at deborah.morgan@maine.gov . You'll have to come to Augusta to get it and Debbie will explain how/where/when the equipment is to be installed on your local roads. After the data is collected, her office will process the data and send you the finished "annual average daily traffic" counts (AADT's) in an Excel spreadsheet.
