

SHOREY'S BROOK CULVERT ON ROUTE 101 IN ELIOT

MaineDOT is replacing the Shorey's Brook Culvert on Route 101 at the Eliot-South Berwick town line.

Work will begin in late July and continue through the end of August. During that timeframe, Route 101 in the vicinity of the culvert will be completely closed for fourteen days. During the full closure, traffic will be detoured onto Route 236 in South Berwick and Route 4 in Rollinsford N.H. Signs will be placed in advance to notify motorists of the full closure and guide them along the detour.

MaineDOT regrets this inconvenience and encourages motorists to drive safely in the work zone and along the detour route.
