

# TRAFFIC ALERT

## U.S. ROUTE 1 IN WARREN

Crews are reconstructing a section of U.S. Route 1 in Warren and delays are expected, especially during the tourist season. The 1.52 mile, \$4.6 million construction project includes the intersection with Route 97. There is alternating one-way traffic through most of the work zone. Work includes full reconstruction of this section of Route 1, new eight-foot shoulders, new drainage and curbs, blasting of some ledge, and ultimately, new pavement.

Work will continue into the fall and then resume next spring. It is anticipated all work will be completed by the end of August 2015. MaineDOT regrets this inconvenience and encourages motorists to allow extra time or find alternate routes.
