WHAT WILL BE COVERED

This workshop is designed to educate local officials about simple maintenance techniques that will extend the service life of a bridge, minor span or large culvert. It will also explain bridge inspections, postings and signing.

Major themes include the following:

- Practical tips on maintaining bridges and smaller structures
- Setting up a low cost maintenance program
- Bridge components and terminology
- Inspections and posting

We will also visit
a nearby bridge and/or large
culvert to actually inspect!!
