Please see "Crash Cushions/Impact Attenuators" QPL	

The TTCDs listed above have been reviewed by the Highway, Safety, & Traffic Related Items Product Evaluation Committee and found to be in compliance with:

- Maine Department of Transportation Standard Specifications Section 652 - Maintenance of Traffic
- National Cooperative Highway Research Program Report 350 (NCHRP-350)
- Manual on Uniform Traffic Control Devices (MUTCD) 2009 Edition, Part 6. Temporary Traffic Control

These units are therefore prequalified for use on MaineDOT construction and maintenance projects with any limitations on their use noted above.

PLEASE NOTE: Products often times may have multiple uses. Products appearing on this particular list are expressly pre-qualified for this category of usage only. Do not use these products for any other application unless this product is noted on other lists.

Manufacturers and sales representatives seeking prequalification of a new product should submit their product's Technical Data Sheet, Instructions for Installation, Material Safety Data Sheet, FHWA Letter of Acceptance (if applicable), and a fully completed copy of the [MaineDOT Preliminary Information for Product Evaluation Form \(PDF\)](#).

If you are experiencing difficulties reading or printing this page, or any page on the Qualified Products List website, please contact the Product Evaluation Coordinator at 207-624-3268.
