

Traffic Alert

Northy Bridge in Whitefield is Closing.

Northy Bridge on Howe Road in Whitefield is closing to all traffic by the morning commute on Friday, December 4th. Though the bridge had been posted at 15 tons, additional deterioration has led to the decision to fully close the bridge to all vehicle and pedestrian traffic. The detour, which includes Vigue Road and Routes 17/32 in Windsor and Whitefield, adds a little more than two miles to the route.

MaineDOT regrets this inconvenience and encourages all motorists to drive safely and courteously along the detour route. Those driving trucks should not use engine brakes unnecessarily. Thank you for your patience.

MaineDOT regrets this inconvenience and encourages motorists to drive safely. Thank you.
