

Reimagine
education.

With a Windows in the Classroom seminar, you'll explore tools and technologies that energize and engage students. You'll learn how to get more out of the software you use every day. And you'll discover how the latest devices and software work together to unleash 21st century learning. Request your seminar today.

Windows
in the Classroom

- Explore the tools and technologies to help educators teach 21st century skills and optimize their classrooms for advanced student achievement
- Learn about the wide range of Microsoft software and devices for Maine's MLTI and how they apply to learning
Discover how students can organize their learning, take notes, and become highly efficient in the way they study
- Understand how technology and devices enable consumption, creation, **and** collaboration for students, educators, and parents
- Learn how Windows can extend learning and be used to inspire students and improve educational outcomes

Bring 21st century learning to your school with a Windows in the Classroom seminar. To request a seminar for your school or district, register for your free Windows Classroom Seminar: <https://mie.ncce.org/index.php/wic>. Learn more about Microsoft in Education. <http://www.microsoft.com/education/>
