**In Re: Review of Aggregate Measurable Cost Savings Determined By Dirigo Health
For The Fourth Assessment Year
Docket No. INS-08-900**

Dear Ms. Leon:

Enclosed for filing please find the Chamber's Production of Data pursuant to the Order Regarding the Record dated August 29, 2008. Also included are two (2) copies of a CD containing Excel spreadsheets supporting all replications set forth in Chamber Exhibit 1 (Dr. Dobson's testimony). This information has been filed pursuant to the Order Regarding the Record dated August 29, 2008.

Thank you for your attention to this matter. If you have any questions, please feel free to contact me at 774-4000.

Very truly yours,

William H. Stiles

	ASSESSMENT YEAR)	

DOCKET NO. INS-08-900

Pursuant to the Superintendent’s Order Regarding the Record dated August 29, 2008 (the “Order”), the Maine State Chamber of Commerce (the “Chamber”) is required to “produce the electronic file(s) of the replicated data sets pursuant to the testimony in Chamber Exhibit 1.”

This documentation is attached to this filing in a CD.

The following are details about the data that may be helpful. With respect to Chamber Exhibit 2 (spreadsheets supporting replication of regression and analysis and output), the US Model Regression Output is contained within Chamber Exhibit 2 worksheet entitled “US Hosp Regression”. As noted on that worksheet, the file used to produce the regression output is “Data _ US Hos.xls”. (This is a DHA file, which we believe to be included within DHA Exhibit 3). Dr. Dobson’s team used SPSS software to replicate the regression analysis, and the output was then imported into Excel format. A printout of the Excel version was included in Chamber Exhibit 2 (**AR 1, Tab 36**).

With respect to the Cluster 1 regression output, the regression output is contained within Chamber Exhibit 2 worksheet entitled “Cluster 1 Regression”. The data used to produce this regression output is contained with Chamber Exhibit 2 worksheet entitled “CL1”. The source data for “CL1” is the file “Data _ Cluster 1” from DHA, which we believe is contained in DHA

Exhibit 3. Please note that the Chamber Exhibit 2 worksheet entitled “CL1” incorrectly notes the source data as “Data _ Cluster 2.xls” (also a DHA file). The actual source data is “Data _ Cluster 1”. It appears that the source data reference for Chamber Exhibit 2 worksheet entitled “CL2” contains a similar error, noting that the source data is “Data _ Cluster 1.xls”. Again, Dr Dobson’s team used SPSS software for this analysis and imported the output into Excel format.

The Chamber has contacted Dr. Dobson and his team to obtain the US Model and Cluster 1 regression output in SPSS format (if it is even possible). As of the time of this filing, and likely due to the holiday weekend, the Chamber has not yet been able to obtain the SPSS version, but will endeavor to meet the Superintendent’s deadline and supplement the enclosed filing.

The CD also contains the underlying data sets used by the Chamber in support of their CMAD regression analysis as set forth in Chamber Exhibits 3, 4, 5, 6a, 6b, 6c, 6d, 6e, 6f, 6g, 8, and 9. A copy of the Excel spreadsheet for each of these Exhibits is attached hereto.

Dated: August 29, 2008.

Respectfully submitted,

/s/ William H. Stiles
