IN RE:            REVIEW OF AGGREGATE            )  
                  MEASURABLE COST SAVINGS    )            RESPONSE OF  
                  DETERMINED BY DIRIGO        )            DIRIGO HEALTH  
                  HEALTH FOR THE FOURTH      )            TO ORDER REGARDING  
                  ASSESSMENT YEAR            )            RECORD

DOCKET NO. INS-O8-900

In response to the Order Regarding the Record of August 29, 2008, Dirigo Health states that the final data sets used to generate DHA Exhibits 11 and 12 are already in the record in electronic form as part of DHA Exhibit 3, (AR 4-65). DHA Exhibits 11 and 12 contain regression analysis outputs from two files contained within DHA Exhibit 3: S+Output\_US Hos.txt and S+Output\_Cluster 1.txt. The data used for these regressions are contained in two other files that are part of DHA Exhibit 3: Data\_US Hos.xls and Data\_Cluster 1.xls. These Excel files contain all data output from the Medicare Cost Report manipulations within Access (dha\_dataset\_20.mdb, another file within DHA Exhibit 3) with relevant field labels and indicator variables M, Y, and D. The interaction variables (M:D, M:Y, Y:D, and M:Y:D) were implemented within the statistical package.

Dirigo Health has no documents in electronic form that are in the record in paper-only form, except that Dirigo Health has Word and .pdf versions of certain documents. Those electronic documents are attached to the electronic version of this filing.

Respectfully Submitted,

Dated: September 2, 2008
