PV Rapid Shutdown NEC Article 690.12 (October 2015)

At the time of the adoption of the 2014 National Electrical Code a decision was made not to enforce Article 690.12 of the National Electrical Code (Rapid Shutdown of PV Systems on Buildings). This decision was based on the fact that listed equipment was not readily available at that time. Listed equipment is now available and the State of Maine will start enforcing Article 690.12 of the National Electrical Code (Rapid Shutdown of PV Systems on Buildings) on January 1, 2016.

Please contact Ray Stanford with any questions or concerns.
