**Heating Oil Price Averages Leveling Off**

Augusta--- The Governor’s Office of Energy Independence and Security (OEIS) conducted it’s off season oil survey and has found that the current statewide average cash price for No. 2 heating oil to be at **\$2.09 per gallon** the same as last week’s survey.

“The slight increase in retail prices for heating oil may be reflecting a shift in the international markets for oil and refined petroleum products as traders seem to be showing some optimism on the global economic situation. This shift can be seen in the price of crude oil, up \$5.00 from last week,” says OEIS Director John Kerry.

It is important to note that the price for heating oil is a statewide average and that prices in a given geographic region of the state may be considerably higher or lower than the statewide average. Within the OEIS sample, the lowest actual heating oil price of \$1.69 per gallon was found in the Southwestern region. The high-end price of \$2.35 per gallon was found in the Northern region. At the time of this release the price of WTI crude oil, major driver of refined product prices, including heating oil was \$48.53. The statewide kerosene price average is \$2.54 per gallon at this time. The table below provides current Maine cash prices in dollars rounded to the nearest penny.

As Of May 18, 2009

Heating Oil	Statewide	Southwest	Central	Eastern	Western	Northern
Average	2.09	1.97	2.16	2.14	1.99	2.29
High	2.35	2.20	2.20	2.20	2.10	2.35
Low	1.69	1.69	2.09	1.95	1.75	2.24
<b>Kerosene</b>	2.54	2.43	2.62	2.57	2.44	2.68

For assistance please contact MaineHousing about their Home Energy Loan Program (HELP) that provides low interest rate loans of up to \$30,000 to low- and moderate-income homeowners to finance a wide variety of energy-related improvements to their homes. For program details and a list of HELP lenders visit MaineHousing’s website at [www.mainehousing.org](http://www.mainehousing.org) or call 1-877-544-3271. Many projects funded through this program save more money through the improvements than the loan payments they have to make. Businesses should take advantage of Efficiency Maine’s small business loan program to make energy upgrades: [http://www.energymaine.com/business\\_programs.htm](http://www.energymaine.com/business_programs.htm)

The next survey is scheduled for May 26, 2009.
