

That rash or sore might be **SYPHILIS**

Get Tested. Get Treated. Spread the Word.

Syphilis and other STIs are on the rise in Maine

For more information visit: www.cdc.gov/std/syphilis/stdfact-syphilis.htm

Syphilis Symptoms

- Painless sore(s) that may appear around the mouth, genitals, or anal area.
- A rash that can appear anywhere on the body, and oftentimes on the palms of the hands and bottoms of the feet.
- These symptoms may appear and disappear even without treatment.
- Syphilis is treatable, but requires timely medical attention.

Get Tested Today

- If you are experiencing signs or symptoms.
- If you are getting tested for other STIs.
- If you are pregnant or plan to get pregnant in the future.
- Get tested 2-4 times a year if:
 - you are sexually active
 - you have sex without a condom
 - you have more than one sex partner
 - you are a man having sex with other men
 - your partner(s) have tested positive for syphilis
