2018
MAINE FISHERY INFRASTRUCTURE INVESTMENT
TAX CREDIT WORKSHEET INSTRUCTIONS

An income tax credit is available for investments in, or contributions to, public fishery infrastructure projects. The credit is equal to 50% of the eligible investment or contribution, as certified by the Department of Inland Fisheries and Wildlife, and must be taken in equal installments over four years. The investment/contribution limit per project is \$5,000,000. The credit taken in any year is limited to 50% of the tax liability for that taxable year prior to the application of the credit and may not reduce the tax otherwise due to less than zero. Any portion of the credit left unused due to this limitation may be carried forward for up to 15 years. The credit is subject to recapture and is prohibited if the taxpayer claims a federal income tax deduction for the investment or contribution.

In the case of pass-through entities (such as partnerships, LLCs, S corporations, and trusts), the partners, members, shareholders, beneficiaries or other owners are allowed a credit in proportion to their respective interests in these entities. If you are a member of a pass-through entity, enter on lines 1a, 1b, 1c and 1d your share of the tax credit certificates reported to you by the entity.

Include a copy of the certificate issued to you by the Department of Inland Fisheries and Wildlife with this worksheet.
