B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Premiums paid by subscribers prior to the effective date are recorded on the balance sheet as advance premiums and subsequently credited to income as earned during the coverage period.

In addition, the Company uses the following accounting policies:

1. Short-term money market mutual funds are stated at market value and short-term bonds are stated at amortized cost.
2. Bonds are stated at amortized cost.
3. Common stocks are stated at market value.
4. The Company does not have any preferred stock.
5. The Company does not have any mortgage loans.
6. The Company's loan-backed securities are carried at amortized cost. The Company reports the adjustment methodology on an account basis as opposed to each individual security and accounts for all of the securities on a retrospective basis.
7. The Company does not have any investments in subsidiaries, controlled or affiliated companies.
8. The Company does not have investments in joint ventures, partnerships, or limited liability companies.
9. The Company does not have any derivative instruments.
10. The Company does not include anticipated investment income in calculating a premium deficiency.
11. The Company's reported unpaid claims are based on actuarial estimates. The claims adjustment expenses are estimated at approximately 2% of unpaid claims. Liabilities for unpaid claims and claims adjustment expense are based on assumptions and estimates and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided.
12. The Company does not have any capital assets and therefore no capitalization policy.
13. Pharmaceutical rebates receivables consist of reasonably estimated amounts and billed amounts. Both the billed amount and the estimated amount shall be admitted assets subject to the following conditions: Estimated amounts shall be related solely to actual prescriptions filled during the 3 months immediately preceding the reporting date. Other rebates receivables are non-admitted.

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination

NOTES TO FINANCIAL STATEMENTS

- A. Through annual contracts with CMS, the Company's Medicare Advantage revenues ultimately received for each member are based on that member's health status and demographic characteristics, as determined via the CMS risk adjustment process, under which the Company regularly submits risk adjustment data to CMS. Under the risk adjustment process, the Company records a receivable for future revenues that it expects to receive from CMS in the following year, after the final reconciliation of risk adjustment data for the current contract year is complete. These amounts are recognized in the current year as premiums under contracts subject to redetermination. In addition, the Company's Medicare Advantage contracts are subject to retrospective rating provisions under which the Company and CMS share amounts above and below agreed-upon target medical benefit ratios.
- B. Accrued retrospective premiums are recorded as an adjustment to earned premiums and are estimated based on calculations that compare the Company's expected financial results for the contract against the appropriate medical benefit ratio target.
- C. The Company had net premiums written of \$653,632,892 that were subject to retrospective rating features for the year ending December 31, 2023 representing 100% of total net premiums written.
