Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of MMG Insurance Company (Company) have been prepared on the basis of accounting practices prescribed by the Maine Insurance Department.

The Maine Insurance Department recognizes only statutory accounting practices prescribed or permitted by the state of Maine for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Maine Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Maine.

NAIC regulations require that guaranty fund assessments be accrued for throughout the year. However, the Company has been granted permission by the State of Maine Insurance Department to account for guaranty fund assessments on a paid basis. This treatment had an immaterial effect on net income and policyholders' surplus for 2021 and 2020.

The Company was granted permission by the State of Maine Insurance Department to recognize the book value of a company-owned aircraft as an admitted asset. Reconciliations of net income and policyholders' surplus between the amounts reported in the accompanying financial statements (ME basis) and NAIC SAP follow:

B. Use of Estimates

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. Actual results could differ from these estimates.

C. Accounting Policies

Direct, assumed and ceded premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired

portion of premiums written. Such reserves are computed by daily pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums receivable are primarily due from policyholders and agents and are charged off when specific balances are determined to be uncollectible. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable. Net investment income earned consists primarily of interest, dividends and rent income less investment-related expense. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Rental income includes an imputed rent for the Company's occupancy of its own building. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include writedowns for impairments considered to be other than temporary.

In addition, the Company uses the following accounting policies:

- 1. Short-term investments are stated at amortized value using the scientific constant yield-to-worse method.
- 2. Investment grade non-loan-backed bonds with NAIC designations 1 or 2 are stated at amortized cost using the scientific constant yield-to-worse method. Non-investment grade bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. In accordance with SSAP 26, Bonds, Excluding Loan-Backed and Structured Securities, the Company recognizes other than temporary impairments in the fair value of its fixed income portfolio. The Company recognized \$0 and \$0 of realized losses for other than temporary impairments on its fixed income portfolio in 2021 and 2020, respectively. At December 31, 2021, the Company did not hold any bonds that were rated as NAIC 3 or lower.
- 3. Common stocks are stated at market value. In accordance with SSAP 30, *Investments in Common Stock*, the Company recognizes other than temporary impairments in the fair value of its common stock portfolio. The Company recognized \$0 and \$1,128,039 (\$891,151 net of tax) of realized losses for other than temporary impairments on its common stock portfolio in 2021 and 2020, respectively.
- 4. Not applicable as the company did not hold preferred stocks at year end.
- 5. Not applicable as the company did not hold mortgage loans at year end
- 6. Investment grade loan-backed securities are stated at amortized value. The prospective adjustment method is used to value all loan-backed and assetbacked securities.
- 7. Not applicable as the company did not hold investments in subsidiary and affiliated companies at year end.
- 8. Please see Note 10E for information regarding valuation of joint ventures and partnerships.
- 9. Not applicable as the company does not invest in derivatives.
- 10. The Company does not anticipate investment income when evaluating the need for premium deficiency reserves.
- 11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than

the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.

- 12. The Company has a capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, leasehold improvements, and other equipment. The predefined capitalization thresholds under this policy have not changed from those of the prior year.
- 13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.
- D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

- 1. Prepayment assumptions for single-class and multi-class mortgage-backed/assetbacked securities were obtained from Bloomberg or other widely accepted securities data providers. A proprietary model is used for loss assumptions and widely accepted models are used for prepayment assumptions in valuing mortgage-backed and asset-backed securities.
- 2. The Company did not recognize any other-than-temporary impairments on loanbacked securities during the period.
- 3. The Company did not recognize any other-than-temporary impairments on loanbacked securities during the period.
- 4. Loan-backed and structured securities in unrealized loss positions as of year-end, stratified based on length of time continuously in these unrealized loss positions, are as follows:

December 31, 2021

	Less than 1	2 Months	12 Months	or Longer	Total	
	Fair Value Unrealized		Fair Value	Unrealized	Fair Value	Unrealized
		Losses		Losses		Losses
Single-class residential mortgage- backed/asset- backed securities	\$29,806,787	\$376,963	\$ 0	\$ 0	\$29,806,787	\$376,963
TOTAL	\$29,806,787	\$376,963	\$ 0	\$ 0	\$29,806,787	\$376,963

- 5. All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. For those securities in an unrealized loss position as of December 31, 2021, the Company has made a decision to not sell any such securities. The Company has evaluated its cash flow requirements and believes that its liquidity is adequate and it will not be required to sell these securities before recovery of their cost basis. As of December 31, 2021, the Company can assert that it has the intent and believes that it has the ability to hold these securities long enough to allow the cost basis of these securities to be recovered. The conclusions are supported by a detailed analysis of the underlying credit and cash flows on each security. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities held at December 31, 2021 if future events, information and the passage of time causes it to conclude that declines in value are other-than temporary.

MMG Insurance Services, LLC (MMGIS) was organized in connection with a program (Program) established by MMG Insurance Company (MMGIC) and Eastern Insurance Holdings, Inc. (Eastern) for purpose of extending Eastern's workers' compensation product line as companion offerings to MMGIC's commercial lines products. MMGIC and Eastern entered into a Participation Agreement and Operating Agreement dated June 5, 2019, governing the organization and administration of a segregated portfolio established by and under Inova Re Ltd., MMG Portfolio, MMG Re is owned 50% by Eastern and 50% by MMGIC. The Program facilitates the offering of workers' compensation insurance by Eastern (through certain of its licensed insurance company subsidiaries) to MMGIC's commercial lines insureds. MMGIC's financial exposure pursuant to the Participation Agreement and Operating Agreement governing the Program is limited to collateral posted under those agreements, based upon a formula as a function of premium written. MMGIC retains no exposure for workers' compensation policies written by Eastern. MMGIS was formed as a captive agency and subsidiary of MMGIC in order to facilitate the placement of workers' compensation business between Eastern and independent agents appointed by MMGIC, acting as sub-agents for MMGIS. MMGIC and MMGIS entered into a Management Agreement to which MMGIC will provide certain executive management, underwriting, marketing, financial services, information services and customer services to MMGIS.

Note 11 – Debt

A. Amount, Interest, Maturities, Collateral, Covenants

In 2010, the Company renewed an unsecured line of credit ("LOC") of \$3 million. The LOC was converted to a demand line, meaning any loan shall be due and payable on demand. In lieu of a formal expiration date, the agreement has an annual review requirement. The LOC has been extended until September 30, 2022. Interest is accrued on advances at 30 day LIBOR plus 1.75% per annum, is payable monthly, and is not subject to a minimum (floor) rate. The line of credit must be cleared for a minimum of 30 consecutive days during each fiscal year. During 2021 and 2020, the Company had no advances on the line of credit.

B. Funding Agreements with Federal Home Loan Bank (FHLB)

The Company became a member of the Federal Home Loan Bank (FHLB) of Boston in December 2019. To satisfy the membership requirement, the Company holds 902 shares of Class B Capital Stock with a par value and market value of \$90,200 as of December 31, 2021.

To provide the Company with liquidity in case the need arises, the Company has transferred several bonds into its FHLB portfolio. Bonds with a market value of \$9,801,829 and \$13,185,688, and a book value of \$9,237,603 and \$12,246,782 as of

December 31, 2021 and 2020, respectively, are on deposit with FHLB. The Company's Borrowing Capacity with FHLB was \$7,401,634 as of December 31, 2021. The Company has not completed any borrowings from FHLB. The Company also increased its Letter of Credit with FHLB to the amount of \$617,468 as of July 31, 2021.

Note 12 – Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plans and Post-Retirement Benefits

The Company does not maintain a defined benefit pension plan.

The Company adopted a postretirement benefit plan in 2004 covering officers of the Company. The plan covers 50% of retiree medical and prescription drug premium costs for eligible participants. For eligible participants who retired prior to 2004, the benefit is 100%. Prior to 2012, eligible participants were defined as those participants who attained age 62 with 5 years of accrued service. Coverage was provided through the Company's group health insurance policy. The plan was amended effective January 1, 2012 to redefine eligibility to cover those participants who attain age 62 while still in the employ of the Company as an officer and he or she is enrolled and covered with the Company's group health insurance policy on the date immediately preceding their retirement date.

Under the amended plan, eligible participants will remain covered under the Company's group health insurance policy until they become eligible for Medicare. Upon attaining Medicare eligibility, they will be carved out of the group health plan and will purchase individual Medicare supplement policies with the cost sharing the same as mentioned above. The postretirement benefit plan is an unfunded plan.

The following tables set forth the obligations and funded status, assumptions, plan assets and cash flows associated with the postretirement benefits as of December 31, 2021 and 2020:

E. Defined Contribution Plans

The Company adopted a 401k Profit Sharing Plan on July 1, 1995. Since inception and up to January 1, 2009, the Company approved a discretionary match of employee compensation contributed to the plan subject to approval by the Board of Directors. This discretionary match was reviewed annually by the Board of Directors.

Effective January 1, 2009, the plan was amended to become the MMG Insurance Company 401(k) Retirement Savings Plan. Pursuant to the termination of the defined benefit pension plan in 2009, the plan was redesigned to provide an offsetting increase in retirement benefits. The plan was enhanced as follows effective January 1, 2009:

- Ø **Automatic enrollment**; i.e., all employees will be enrolled in the plan
- Nonelective Contributions Each plan year, the Company will make nonelective contributions to the plan on the participant's behalf in an amount equal to 3% of their pay for such year.
- **Employer matching contribution** broken down as follows:
 - \$1.00 for each dollar of elective contributions made on the participant's behalf up to 2% of pay; and
 - \$.50 for each dollar of elective contributions made on the participant's behalf in excess of 2% of their pay and up to 6% of their pay

Thus, if a participant's elective contributions equal 6% or more of their pay, the Company will contribute on their behalf a maximum matching contribution of 4% of their pay.

Discretionary Contribution – In addition to the above, from time to time, the Company may elect to make a discretionary contribution to the Plan to be determined by the Board of Directors.

The Company made contributions to the plan of \$1,328,889 and \$1,283,756 in 2021 and 2020, respectively.

Employees were able to contribute a maximum of \$19,500 in 2021 and 2020,. Employees attaining age 50 or older during 2021 or 2020 were allowed a catch up contribution of \$6,500 in those years.

John Hancock serves as the plan's service provider and trustee, and Downeast Pension Services is the plan's third party administrator.

H. Postemployment Benefits and Compensated Absences

The Company has no obligations to current or former employees for benefits after their employment but before their retirement other than for compensation related to earned vacation pay. The liability for earned but untaken vacation pay has been accrued.

I. Impact of Medicare Modernization Act on Postretirement Benefits

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law in December of 2003. The Act includes the following two new features to Medicare Part D that could affect the measurement of the accumulated postretirement benefit obligation (APBO) and net periodic postretirement cost for the Plan:

- A federal subsidy (based on 28% of an individual beneficiary's annual prescription drug costs between \$250 and \$5,000), which is not taxable, to sponsors or retiree healthcare benefit plans that provide a prescription drug benefit that is at least actuarially equivalent to Medicare Part D; and
- The opportunity for a retiree to obtain a prescription drug benefit under Medicare.

The Company sponsors a postretirement health care benefit plan that provides medical and prescription drug coverage eligible officers of the Company. See Note 12A for more details.

Note 13 - Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

A. Outstanding Shares

The Company has 5,000,000 shares authorized, 2,500,000 issued and outstanding. All shares are Class A shares.

B. Dividend Rate of Preferred Stock

Not applicable

C. Dividend Restrictions

Without prior approval of its domiciliary commissioner, dividends to shareholders are limited by the laws of the Company's state of incorporation to the greater of prior year income or 10% of surplus. Within the limitations above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to stockholders. There were no restrictions placed on the Company's surplus, including for whom the surplus is being held.

D. Dates and Amounts of Dividends Paid

K. Surplus Notes

Effective February 9, 2018, the Company issued a 25 year, \$15,000,000 Surplus Promissory Note to Farm Bureau Life Insurance Company of Michigan (FBLMI). The note carries a fixed interest rate of 6.75% per annum, payable quarterly. The note is callable by the Issuer, at its option, at par, in whole or in part, at any time or from time to time after the 10th anniversary of the date of issuance, subject to redemption premiums. The proceeds from the surplus note were used to pay off two Trust Preferred securities for \$12 million in the aggregate and to provide \$3 million of additional capital. On March 20, 2018, the Company redeemed Trust Preferred Security II for \$6,000,000, and on April 27th, 2018, the Company redeemed Trust Preferred I for \$6,000,000.

G. Other Contingencies and Writedowns for Impairment

At the end of the current and prior year, the Company had admitted assets of \$56,569,723 and \$55,360,206, respectively, in premiums receivable due from policyholders, agents and ceding insurers. The Company routinely assesses the collectability of these receivables. Based upon Company experience, any uncollectible premiums receivable as of the end of the current year are not expected to exceed the nonadmitted amounts and, therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

Lawsuits arise against the Company in the normal course of business. Contingent liabilities arising from litigation, income taxes, and other matters are not considered material in relation to the financial position of the Company.

The Company did not recognize any other-than-temporary impairments (OTTI) during 2021.

Note 15 – Leases

A. Lessee Leasing Arrangements

Effective December 1, 2018, the Company entered into a lease for its regional office to Portsmouth, New Hampshire. The 10-year lease will expire on November 30, 2028. New Hampshire rental expense for the current year and the prior year was \$84,584 and \$83,717, respectively.

The Company entered into a lease agreement on November 27, 2019 (effective date of March 1, 2020) to relocate its Mid-Atlantic regional office from Bethlehem, Pennsylvania to Lancaster, Pennsylvania. The Company also had a leasing agreement for office space for its regional office in Bethlehem, Pennsylvania under a non-cancelable lease which expired on May 31, 2020. Rental expenses for the Mid-Atlantic regional office for the current year and prior year were \$99,962 and \$109,290, respectively.

Effective July 28, 2016, and continuing for an initial period of thirteen (13) years, until February 28, 2029, the company entered into a system operating lease with its parent, MMG Financial Services, Inc. Through this lease agreement, the Company leases an operating software technology platform integrated into its upgraded Core Operating System for use in the operation of its business. Lease expense for the current year and the prior year were \$3,840,000 and \$2,736,000, respectively.

Total combined lease expense for the current year and the prior year were \$4,024,546 and \$2,929,007, respectively.

Minimum lease payments for the remainder of the lease term to be incurred are:

2022	\$4,422,210

Note 20 – Fair Value Measurements

- A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value
 - 1. Items Measured and Reported at Fair Value by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 – Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 – Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds which are not exchange traded. The estimated fair values of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

Level 3 – Significant Unobservable Inputs: This category is for items measured at fair value on a recurring basis for which fair value is derived from techniques in which one or more of the significant inputs are unobservable, including broker quotes which are non-binding.

2021	Level 1	Level 2	Level 3	Total
Common stocks Total fair value	64,744,203 \$ 64,744,203	\$ -	181,316 \$ 181,316	64,925,518 \$64,925,518
2020	Level 1	Level 2	Level 3	Total
Common stocks Bond Total fair value	53,316,277	420,000 \$ 420,000	172,657 - \$ 172,657	53,488,934 420,000 \$53,908,934

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

2. Rollforward of Level 3 Items

	2021		2020	
	Common Stock		Common Stock

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

The common stock carried at fair value and categorized as Level 3 was valued using figures provided by the underlying company, and was derived using the prior-year's book value per share, provided by the issuing company.

- F. Subprime Mortgage Related Exposure
 - 1. Subprime Mortgage Exposures

The Company invests in several asset classes that could potentially be adversely affected by subprime mortgage exposure. These investments include asset-backed securities, US agency debt securities, investment-grade corporate bonds and equity investments in financial institutions. The Company believes that its greatest exposure is to unrealized losses from declines in asset values versus realized losses resulting from defaults or foreclosures. Conservative investment practices limit the Company's exposure to such losses.

2. Direct Exposure - Mortgage Loans

The Company does not participate in mortgage lending.

3. Direct Exposure - Other Investment Classes

The Company has several other investment classes that could have subprime mortgage exposure including:

- Asset-backed securities
- Debt obligations of financial institutions participating in subprime lending practices
- Unaffiliated equity securities issued by financial institutions participating in subprime lending.

The Company has reviewed its mortgage-backed security portfolio and determined that all of these investments are in pools that are backed by loans made to well-qualified borrowers or in tranches that have minimal default risk. In accordance with SSAP 43R, all residential mortgage-backed securities were examined at year end 2021 for possible other-than-temporary impairments. As explained in Note 5D above, no loss due to other-than-temporary impairments has been realized in 2021 on residential mortgage-backed securities.

At the end of the current year, the Company did not hold any securities with direct exposure to subprime mortgages.

All bonds held that were issued by financial institutions participating in subprime lending activities are investment grade quality. Default risk on these bonds appears minimal at this time.

The Company has no exposure to subprime mortgages in either the mortgage-backed or commercial mortgage-backed security sectors of the market.

The Company has indirect exposures to subprime mortgages in the U.S. Agency sector. The Company has approximately \$1.0 million book value in agency debt in the Company's portfolio in Fannie Mae securities. The Company also has indirect exposure to subprime mortgages in the investment-grade corporate bond sector. The Company has approximately \$86.9 million book value in investment-grade corporate fixed income securities. Of these corporate holdings, approximately \$17.0 million were in the banking sector, \$3.0 million were in the brokerage sector, and \$1.4 million were in the financing sector.

Note 23 – Reinsurance

A. Unsecured Reinsurance Recoverables

The Company does not have an unsecured aggregate reinsurance recoverable for paid and unpaid losses, loss adjustment expenses and unearned premiums from any individual reinsurer that exceeds 3% of policyholders' surplus.

B. Reinsurance Recoverables in Dispute

The Company does not have reinsurance recoverables in dispute for paid losses and loss adjustment expenses that exceed 5% of policyholders' surplus from an individual reinsurer or exceed 10% of policyholders' surplus in aggregate.

Note 25 - Changes in Incurred Losses and Loss Adjustment Expenses

The estimated cost of loss and loss adjustment expenses (LAE) attributable to insured events of prior years increased by \$2,142 during the current year. This increased the current calendar year losses and LAE incurred by this amount, as shown in the chart below. Increases or decreases of this nature occur as the result of claim settlements during the current year, and as additional information is received regarding unpaid individual claims, causing changes from the original estimates of the cost of these claims. Recent loss development trends are also taken into account in evaluating the overall adequacy of unpaid losses and loss adjustment expenses.
