Section 8. Debt Service on Existing Loans

Farms may have made recent structural investments or taken on equipment loans that, absent PFAS, would likely have enhanced operations and/or increased sales. Examples may include but not be limited to a new high-tunnel, greenhouse, farm store, milking parlor, or barn. Although DACF offers Income Replacement payments, if the anticipated return on investment had not yet been realized when PFAS were discovered, the farm is likely to have difficulty making timely and/or full payments on these notes regardless of receiving Income Replacement assistance.

DACF can review farm finances and other information and, depending on the circumstances, may pay notes directly related to farm infrastructure built and/or installed generally within two to five years prior to the discovery of PFAS contamination.

Questions about debt service on existing loans may be directed to Meagan Hennessey, PFAS Response Director, at Meagan.Hennessey@maine.gov or 207-592-3795.

Required Documentation – Section 8

The following information must be submitted with this Section of the application:

1. Section 1. Applicant General Information with all specified attachments
2. A narrative, one-page or less, which includes the following information:
 1. Date the loan was acquired and for what purpose,
 2. The amount initially borrowed and the outstanding principal balance, and
 3. An explanation of how the discovery of PFAS has impacted the original plan for this investment
3. If requesting a direct reimbursement, provide Proof of Payment
4. Supporting documentation, such as:
 1. The debt agreement, including date incurred and terms; and
 2. Invoice(s) or receipt(s) from the debt service provider from the relevant timeframe including payment date and amount
