Ms. Stacie Beyer
Maine Land Use Planning Commission
106 Hogan Road, Suite 8
Bangor, Maine
04401

Subject: Request for Certification for Weaver Wind, LLC, Weaver Wind Project, Hancock County, Maine

Dear Stacie,

On behalf of Weaver Wind, LLC, a subsidiary of First Wind, LLC, Normandeau Associates, Inc. is hereby submitting a request for project certification under the Maine Land Use Planning Commission's (Commission's) rules and regulations. Figure 1, attached to this letter, shows the project location. As you are aware, a combined Site Location of Development and Natural Resource Protection Act permit application has been submitted the Maine Department of Environmental Protection for review. This request for certification is necessary as a portion of the project encompasses areas under the Commission's jurisdiction.

To assist you in your evaluation, we have sent you a complete application package for your use. If you have any questions during your evaluation on the combined application, please do not hesitate to contact me at 207-518-6765.

Sincerely,

Normandeau Associates, Inc.

A handwritten signature in blue ink, appearing to read "Ian Broadwater", is written over a faint, illegible printed name.

Ian Broadwater
Principal Scientist and Permit Agent
