N/A

Signed: Donald E. [Signature] Date: 3/9/24

Return completed form to: **Board of Pesticides Control, 28 State House Station, Augusta, ME 04333-0028**
OR E-mail to: pesticides@maine.gov

Attachment

X. Method to ensure equivalent protection

Will also use LI 700, a non ionic surfactant containing drift control + defoamer all in one. Will also use Blue dye to reduce any over application. Application date of June 1 to August 30 to assure river level is at its lowest, with no wind where temperature will allow for fastest drying time + no suspension of spray.

RE: Variance Permit for CMR 01-026, Chapters 29 for Vegetation Control on the Fort Kent Levee

Dear Mr. Dubois:

The Board of Pesticides Control considered your application for variance from Chapter 29. The variance is approved, with the condition that all products to be used are currently registered in the State of Maine or were registered at the time of purchase and any application is made above the high-water line.

The Board has authorized the issuance of two-year permits for Chapter 29. Therefore, this permit is valid until December 31, 2025, as long as applications are consistent with the information provided on the variance request. Please notify the Board, in advance, of significant changes, particularly if you plan to use a different product from those listed.

Please bear in mind that your permit is based upon your company adhering to the precautions listed in Section X of your application.

I will alert the Board at its next meeting that the variance permit has been issued. If you have any questions concerning this matter, please feel free to contact me at 287-2731.

Sincerely,

Alexander Peacock
