

SAMPLE STATION #1

OUTLET

MIDAS # 4908

JAMES POND

SOMERVILLE TWP, LINCOLN CO., MAINE

AREA 50 ACRES

JAMES POND

Somerville Twp., Lincoln County
U.S.G.S. Razorville, Maine

Fishes

Landlocked salmon	Minnows
Brown trout	Golden shiner
Smallmouth bass	White sucker
Largemouth bass	Hornpout (bullhead)
White perch	Pumpkinseed sunfish
Yellow perch	American eel
Chain pickerel	Sea-run alewife

Physical Characteristics

Area - 54 acres

Temperatures:

Maximum depth - 18 feet

Surface - 71⁰F
18 feet - 55⁰F

Principal fisheries: Largemouth bass, smallmouth bass, chain pickerel, white perch

James Pond provides excellent habitat for warm water fishes. Largemouth and smallmouth bass migrated into the pond via the Sheepscot River and now provide good fisheries. While landlocked salmon and brown trout have been captured in James Pond (migrants from the river) there is no viable fishery for these species.

The only public access is via the Sheepscot River.

Surveyed - July, 1956

Revised - 1998
