

WEARY POND

Whitefield Twp., Lincoln County
U.S.G.S. North Whitefield, Maine

Fishes

Smallmouth bass
White sucker
Banded killifish

Pumpkinseed sunfish
American eel

Physical Characteristics

Area - 42 acres

Maximum depth - 18 feet

Principal fishery: Smallmouth bass

Temperatures:

Surface - 76⁰F

18 feet - 63⁰F

Weary Pond contains an abundance of warmwater fish habitat. Smallmouth bass are well established in this pond and provide a summer fishery.

The lack of coldwater habitat and the large number of competing species dictate that no trout stocking should occur.

The Weary Pond road runs along the entire west shore creating easy access.

Surveyed - August, 1956

Revised - 1998

Maine Department of Inland Fisheries and Wildlife
