## SAFARI IN A BOX

Are you looking for a **Wildlife Adventure** right in your classroom? The **Safari in a Box** is a kit filled with a variety of animal pelts, skulls, tracks, scat replicas, wildlife fact sheets, activities, videos and posters all neatly packaged in a large tote trunk. A guide to animal skulls, Project WILD and other wildlife classroom activities, along with Maine-specific materials from the Maine Department of Inland Fisheries and Wildlife are included.

This hands-on, activity based teaching kit will help your students understand wildlife identification, management and proper conservation practice.

Trunks have been placed at these locations statewide. Please contact the facility nearest to you to arrange to borrow the trunk. A small deposit may be required to ensure full return of all materials in the trunk. Length of time the trunk may be borrowed will vary with the facility. For more information, contact the host site closest to you directly.
