## The Solar Exemption

The solar industry lobby had a very successful few months in 2019. The Legislature could not pass bills to benefit the industry fast enough. But they tried. LD 1430, An Act To Create Tax Equity Among Renewable Energy Investments, is the legislation that affects us the most. LD 1430 exempts solar installations of almost any size. How to figure the exemption takes some doing. Come to this meeting and we'll show you how.
