

## APPENDIX

We are writing on behalf of our client, Fulton Bank, to notify your office of a cybersecurity incident that involved Overby-Seawell Company.

Overby-Seawell Company, or OSC, provides property insurance validation for banks and other lenders, including Fulton Bank. On July 5, 2022, OSC discovered suspicious activity on certain computer systems. They immediately launched an investigation with the assistance of third-party forensic specialists to determine the nature and scope of the activity. OSC's investigation determined that there was unauthorized access to specific OSC servers beginning on May 26, 2022. On July 11, 2022, OSC learned that certain information was stolen from OSC's network, and they undertook a review of the impacted files and later determined that those files contained certain information related to Fulton Bank customers.

This incident did not involve Fulton Bank's business systems, nor were they impacted by the event at OSC.

Fulton Bank was formally notified by OSC of the incident on August 11, 2022. On August 25, 2022, Fulton Bank's analysis of the data determined that the incident involved information for 13,185 Maine residents.

OSC is mailing notification letters via First Class mail to these customers on August 30, 2022. OSC is offering impacted individuals a complimentary, two-year membership to credit monitoring and identity theft protection services and will operate a toll-free call center that individuals can call to obtain more information regarding the incident. A copy of the notification letter is attached.
